VOLUME 50 · SUBJECT INDEX

Acid anhydrides, Work-related symptoms and specific sensitisation in a cohort of workers exposed to acid anhydrides, **441P**

***Acinetobacter* infection**, A case of *Acinetobacter calcoaceticus* pneumonia, **315**

Actigraphy, Wrist actigraphic assessment of sleep in 116 community based subjects suspected of obstructive sleep apnoea, **284**

Acute mountain sickness, High altitude pulmonary oedema: still a place for controversy? *editorial*, **923**

Acute respiratory failure, Non-invasive mechanical ventilation in acute respiratory failure due to chronic obstructive pulmonary disease: correlates for success, **755**: *letter*, **1327**

Adenosine, Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**

Adenosine deaminase
- Tuberculous pleurisy and adenosine deaminase: *editorial*, **593**
- Use of adenosine deaminase as a diagnostic tool for tuberculous pleurisy, **672**
- Value of adenosine deaminase in the diagnosis of tuberculous pleural effusions in young patients in a region of high prevalence of tuberculosis, **600**

Adenovirus
- Commentary: severe varicella/zoster and adenovirus infections in immunocompromised patients, **1222**
- Treatment of adenoviral pneumonitis with intravenous ribavirin and immunoglobulin, **1219**

Adult respiratory distress syndrome
- 4-Hydroxy-2-nonenal levels in the plasma of patients with ARDS, **458P**
- Inflammatory predictors for the development of the adult respiratory distress syndrome: *editorial*, **1023**
- Mechanisms of the adult respiratory distress syndrome: selectins, **S49**
- Plasma thrombomodulin in patients "at risk" and with established adult respiratory distress syndrome, **458P**
- Raised interleukin 10 levels in bronchoalveolar lavage samples in the adult respiratory distress syndrome, **457P**

Aeromycology, Aeromycology of hospital buildings: non-construction related aspergillosis and detection of contaminated aerosols, **431P**

Aerosols
- Aeromycology of hospital buildings: non-construction related aspergillosis and detection of contaminated aerosols, **431P**
- Aerosol deposition in the human lung following administration from a microprocessor controlled pressurised metered dose inhaler, **639**
- An alternative aerosol delivery system for amiloride, **517**
- Differences in aerosol output and airways responsiveness between the DeVilbiss 40 and 45 hand held nebulisers, **635**
- Effect of a spacer on pulmonary aerosol deposition from a jet nebuliser during mechanical ventilation, **50**

Age, Trends in mortality from tuberculosis in England and Wales: effect of age on deaths from non-respiratory disease, **976**

AIDS
- Interstitial pneumonitis in patients infected with the humanimmunodeficiency virus, **1141**
- Intrathoracic Kaposi's sarcoma in patients with AIDS, **407**
- Prognostic factors influencing the outcome in *Pneumocystis carinii* pneumonia in patients with AIDS, **668**
- Pulmonary aspergilloma in a patient with AIDS, **312**: commentary, **317**
- Pulmonary complications of HIV disease: 10 year retrospective evaluation of yields from bronchoalveolar lavage, 1983-93, **1240**
- Quantity of HIV-1 proviral DNA in alveolar cells may be contributing to abnormalities of lung physiology in AIDS patients, **434P**
- Relationship between HIV-1 proviral DNA copy number in alveolar macrophages and clinical disease in the lung of AIDS patients, **433P**

Air interface organ culture model, An air interface organ culture model for use in the study of the interactions of bacteria, viruses and pharmacological agents with the human respiratory mucosa, **470P**

Air pollution
- Air pollution and asthma in Athens: *letter*, **320**
- Air pollution and COPD: *letter*, **917**
- Effect of ambient levels of smoke and sulphur dioxide on the health of a national sample of 23 year old subjects in 1981, **764**
- Effects of air pollution on symptoms and peak expiratory flow measurements in subjects with obstructive airways disease, **149**: *letter*, **917**
- Health effects of an air pollution episode in London, December 1991, **1188**
- Short-term association between air pollution and emergency room visits for asthma in Barcelona, **1051**
- Short term fluctuations in air pollution and hospital admissions of the elderly for respiratory disease, **531**
- Spatial mapping to relate respiratory morbidity to a point source of air pollution, **431P**
- Toxicity of environmental particulate: studies with ultrafine titanium dioxide, **461P**

Airflow obstruction, Comparative efficacy of ipratropium bromide via Turbohaler and MDI in patients with reversible airflow obstruction, **469P**

Airway smooth muscle
- Airway smooth muscle relaxation, **894**
- Effects of sodium metabisulphite on guinea pig contractile airway smooth muscle responses in vitro, **875**

Airways inflammation, Bronchial inflammation in chronic bronchitis assessed by measurement of cell products in bronchial lavage fluid, **360**

Airways limitation, Pseudomembranous necrotising bronchial aspergillosis complicating chronic airways limitation, **807**

Airways obstruction
- Capsaicin cough challenge: relationship to airways obstruction and reactivity in asthma, **466P**
- Dietary fish oil and airways obstruction, **S11**
- Obstructive sleep apnoea with Arnold-Chiari malformation, **690**: commentary, **696**
- Paradoxical vocal cord adduction in an adolescent with cystic fibrosis, **694**: *commentary*, **696**: *letter*, **1228**
- Sleep apnoea syndrome secondary to rheumatoid arthritis, **692**: commentary, **696**

Airways responsiveness
- Beta$_2$ adrenergic receptor gene restriction fragment length polymorphism and bronchial asthma, **353**
- Differences in aerosol output and airways responsiveness between the DeVilbiss 40 and 45 hand held nebulisers, **635**
- Effect of dietary sodium on airways responsiveness and its importance in the epidemiology of asthma: an evaluation in three areas of northern England, **941**

Allergen challenge, Increased H_2O_2 generation by primed human eosinophils following allergen challenge, **448**

Allergen-induced asthma
- Allergen-induced late asthmatic reactions are associated with increased nitric oxide concentration in exhaled air, **438P**
- Imaging allergen-invoked airways inflammation in atopic asthma in vivo using [^{18}F]-fluorodeoxyglucose and positron emission tomography, **438P**

Allergic bronchopulmonary aspergillosis, Allergic bronchopulmonary aspergillosis after lung transplantation? **462P**

Allergic disease
- HLA genetics and allergic disease: *editorial*, **815**
- Role of viral infections in the inception of childhood asthma and allergies: *letter*, **701**

Allergic inflammation, The consequences of chronic allergic inflammation: *Altounyan address*, **328**

Allergic rhinitis
- Effects of topical capsaicin in seasonal allergic rhinitis, **225**
- Placebo controlled study comparing budesonide 256 μg and 128 μg with fluticasone propionate 200 μg in patients with seasonal allergic rhinitis, **468P**

Alpha$_1$-antitrypsin deficiency, Bronchiectasis and homozygous (P_1ZZ) alpha$_1$-antitrypsin deficiency in a young man, **424**

Alveolar-arterial P_{CO_2} difference, Measurement of effective alveolar carbon dioxide tension during spontaneous breathing in normal subjects and patients with chronic airways obstruction, **240**

Alveolar carbon dioxide tension, Measurement of effective alveolar carbon dioxide tension during spontaneous breathing in normal subjects and patients with chronic airways obstruction, **240**

Alveolar cells, Quantity of HIV-1 proviral DNA in alveolar cells may be contributing to abnormalities of lung physiology in AIDS patients, **434P**

Alveolar epithelial permeability, Pulmonary vascular endothelial permeability in systemic sclerosis: relationship to alveolar epithelial permeability and disease extent, **433P**

Alveolar macrophages
- ICAM-1 expression on alveolar macrophages is enhanced by relevant allergen challenge in patients with atopic asthma, **439P**
- Reduction in leukotriene B_4 generation by bronchoalveolar lavage cells in asthma, **67**
- Relation of bronchoalveolar lavage T lymphocyte subpopulations to rate of regression of active pulmonary tuberculosis, **869**
- Relationship between HIV-1 proviral DNA copy number in alveolar macrophages and clinical disease in the lung of AIDS patients, **433P**
- Tumour necrosis factor alpha regulation by interleukin 10 in alveolar macrophages from patients with sarcoidosis or fibrosing alveolitis, **457P**

Ambulance
- Acute severe asthma: oxygen and high dose beta agonist during transfer for all? *editorial*, **1**
- Effectiveness of nebulised salbutamol administered in ambulances to patients with severe acute asthma, **81**
- Open, prospective comparison of $beta_2$ agonists given via nebuliser, Nebuhaler, or pressurised inhaler by ambulance crew as emergency treatment, **79**

Amiloride, An alternative aerosol delivery system for amiloride, **517**

Amphotericin B
- Treatment of pulmonary aspergilloma in cystic fibrosis by percutaneous instillation of amphotericin B via indwelling catheter, **809**
- Use of nebulised liposomal amphotericin B in the treatment of *Aspergillus fumigatus* empyema, **1321**: commentary, **1323**

Ampicillin resistance, Case control study of clinical features associated with ampicillin resistant *Haemophilus influenzae* infection, **465P**

Amyloidosis, Primary amyloidosis presenting as an isolated mediastinal mass: diagnosis by fine needle biopsy, **908**

Anaesthesia, Ventilation-perfusion relationships during anaesthesia, **85**

Aneurysm, Pulmonary arterial aneurysm presenting as an endobronchial mass, **1013**: commentary, **1016**

Angiotensin converting enzyme inhibitors, Effects of ACE inhibition on sodium excretion in COPD: *letter*, **430**

Angiotensin II
- Angiotensin II potentiates, in vitro and in vivo, methacholine-induced bronchoconstriction, **475P**
- Lisinopril inhibits elevation of plasma angiotensin II by nebulised $beta_2$ agonists, **475P**
- Pulmonary vasorelaxant activity of atrial natriuretic peptide and brain natriuretic peptide in humans, **183**

Anterior mediastinotomy, Value of cervical mediastinoscopy combined with anterior mediastinotomy in bronchogenic carcinoma of the left upper lobe, **473P**

Antibiotic resistance, Antibiotic resistance in common acute respiratory pathogens: *editorial*, **481**

Antibiotics
- Changes in symptoms, peak expiratory flow, and sputum flora during treatment with antibiotics of exacerbations in patients with chronic obstructive pulmonary disease in general practice, **758**
- New and future antibiotics in the treatment of acute respiratory tract infections: *editorial*, **223**

Antioxidants, Oxidants/antioxidants in idiopathic pulmonary fibrosis, **S53**

Antiprotease, Pulmonary deposition and disappearance of aerosolised secretory leucocyte protease inhibitor, **645**

Apnoea
- Accuracy of an intelligent CPAP machine with in-built diagnostic abilities in detecting apnoeas: a comparison with polysomnography, **1199**
- Apnoea in Duchenne muscular dystrophy: *letter*, **1123**
- Comparison of reflex activity of levator palatini and palatopharyngeus in patients with sleep apnoea, **445P**
- Reflex activity of palatal muscles in patients with sleep apnoea and normal non-snoring subjects, **445P**

Apoptosis, Inhibition of growth factor-stimulated tyrosine phosphorylation induces apoptosis in small cell lung cancer cell lines, **457P**

Arachidonic acid metabolites, In vitro release of arachidonic acid metabolites, glutathione peroxidase, and oxygen-free radicals from platelets of asthmatic patients with and without aspirin intolerance, **490**

L-Arginine, L-Arginine increases exhaled nitric oxide in normal subjects, **451P**

Arnold-Chiari malformation, Obstructive sleep apnoea with Arnold-Chiari malformation, **690**: *commentary*, **696**

Arterial gases, Arterial blood gas analysis or oxygen saturation in the assessment of acute asthma? **186**

Asbestos, Pleurectomy for persistent pain in benign asbestos-related pleural disease, **181**

Asian immigrants, Vegetarian diet as a risk factor for tuberculosis in immigrant south London Asians, **175**: *letter*, **915**

Aspergilloma
- Colonisation with *Aspergillus* of an intralobar pulmonary sequestration, **810**
- Treatment of pulmonary aspergilloma in cystic fibrosis by percutaneous instillation of amphotericin B via indwelling catheter, **809**

Aspergillosis
- Aeromycology of hospital buildings: non-construction related aspergillosis and detection of contaminated aerosols, **431P**
- Commentary: unusual manifestations of aspergillosis, **812**
- Pseudomembranous necrotising bronchial aspergillosis complicating chronic airways limitation, **807**
- Three cases of pulmonary aspergilloma in adult patients with cystic fibrosis, **805**

Aspergillus fumigatus, Use of nebulised liposomal amphotericin B in the treatment of *Aspergillus fumigatus* empyema, **1321**: commentary, **1323**

***Aspergillus* infection**
- Colonisation with *Aspergillus* of an intralobar pulmonary sequestration, **810**
- Pseudomembranous necrotising bronchial aspergillosis complicating chronic airways limitation, **807**
- Pulmonary aspergilloma in a patient with AIDS, **312**: *commentary*, **317**
- Pulmonary *Mycobacterium malmoense* and *Aspergillus* infection: *letter*, **216**
- Three cases of pulmonary aspergilloma in adult patients with cystic fibrosis, **805**
- Treatment of pulmonary aspergilloma in cystic fibrosis by percutaneous instillation of amphotericin B via indwelling catheter, **809**

Aspirin-sensitive asthma, In vitro release of arachidonic acid metabolites, glutathione peroxidase, and oxygen-free radicals from platelets of asthmatic patients with and without aspirin intolerance, **490**

Asthma
- Accident and emergency attendance for asthma: an opportunity for intervention? **449P**
- Acute severe asthma: oxygen and high dose beta agonist during transfer for all? *editorial*, **1**
- Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**
- Air pollution and asthma in Athens: *letter*, **320**
- Allergen-induced late asthmatic reactions are associated with increased nitric oxide concentration in exhaled air, **438P**
- Arterial blood gas analysis or oxygen saturation in the assessment of acute asthma? **186**
- Asthma and the beta agonist debate, **S5**
- Asthma outbreaks: an opportunity for research? *editorial*, **220**
- Asthma and poverty in the West Midlands, **463P**
- Asthma publications: *letter*, **215**
- Audit of an admission data sheet for patients with acute asthma, **462P**
- Audit of emergency self-admission for asthma, **463P**

Beta agonist type and outcome following severe life threatening attack of asthma, **450P**
Beta$_2$ adrenergic receptor gene restriction fragment length polymorphism and bronchial asthma, **353**
Bronchodilator responsiveness of impulse oscillation model parameters in healthy and asthmatic subjects, **466P**
Capsaicin cough challenge: relationship to airways obstruction and reactivity in asthma, **466P**
Care of children with asthma in schools, **464P**
Changes in lung function in asthmatic children undergoing general anaesthesia, **464P**
Changes in symptoms, peak expiratory flow, and sputum flora during treatment with antibiotics of exacerbations in patients with chronic obstructive pulmonary disease in general practice, **758**
Characteristics of wheeze during histamine-induced airways obstruction in children with asthma, **143**
Childhood asthma: what is it and where is it going? *editorial*, **1027**
Comparison of the efficacy and tolerability of eformoterol and salbutamol dry powder capsules for inhalation in elderly asthmatic patients, **469P**
Comparison of fluticasone propionate and beclomethasone dipropionate on direct and indirect measurements of bronchial hyperresponsiveness in patients with stable asthma, **1044**
Comparison of nebulisation therapy combining ipratropium bromide (0·5 mg) plus salbutamol sulphate (3·0 mg) with salbutamol sulphate (3·0 mg) alone in acute asthma, **450P**
Comparison of the relative airways and systemic potencies of inhaled fenoterol and salbutamol in asthmatic patients, **54**
Compliance with inhaled asthma medication in preschool children, **1274**
Consequences of chronic allergic inflammation: *Altounyan address*, **328**
Corticosteroid sparing agents in asthma, **577**

Atopic asthma, ICAM-1 expression on alveolar macrophages is enhanced by relevant allergen challenge in patients with atopic asthma, **439P**

Atopic disease, Association of family size with atopic disease, **448P**

Atopy, Cytokine expression in normal, atopic, and asthmatic subjects using the combination of sputum induction and the polymerase chain reaction, **1033**

Atrial natriuretic peptide
Effect of thiorphan, an inhibitor of neutral endopeptidase, on the bronchodilator response to inhaled atrial natriuretic peptide in asthma, **476P**
Role of potassium channels in the bronchodilator effect of atrial natriuretic peptide in bovine bronchi, **476P**

Atrial septal defect, Massive haemoptysis complicating prosthetic patch pulmonary embolism after atrial septal defect repair, **911**

Audit
Audit of an admission data sheet for patients with acute asthma, **462P**
Audit of discharge rates in respiratory outpatient clinics: NHS versus the private sector, **447P**
Audit of emergency self-admission for asthma, **463P**
Prospective audit of the inpatient management of patients with chronic airflow obstruction, **455P**
Review of the prescription of domiciliary long term oxygen therapy in Scotland, **1103**: correction, **1327**

Autogenic drainage, Chest physiotherapy in cystic fibrosis: a comparative study of autogenic drainage and the active cycle of breathing techniques with postural drainage, **165**: *letter*, **1123**

Autoimmune disease, Sclerosing mediastinitis: a report on 18 cases, **280**

Autoimmunity
Pulmonary veno-occlusive disease presenting with thrombosis of pulmonary arteries, **699**
T cell receptor genetics, autoimmunity and asthma: *editorial*, **919**

Automatic apnoea detection, Accuracy of an intelligent CPAP machine with in-built diagnostic abilities in detecting apnoeas: a comparison with polysomnography, **1199**

Autonomic neuropathy
Hormonal, renal, and autonomic nerve factors involved in the excretion of sodium and water during dynamic salt and water loading in hypoxaemic chronic obstructive pulmonary disease, **838**
Twelve months follow up of autonomic neuropathy in patients with severe COPD, **455P**

Autoset, Comparison of polysomnography with ResCare Autoset in the diagnosis of the sleep apnoea/hypopnoea syndrome, **1201**

B cell lymphoma, Fallibility of transthoracic needle biopsy of anterior mediastinal masses, **1114**: commentary, **1121**

Bacterial infection, Microbial inciters of acute asthma in urban Nigerian children, **739**

Barcelona, Short-term association between air pollution and emergency room visits for asthma in Barcelona, **1051**

Beclomethasone, Measuring the systemic effects of inhaled beclomethasone: timed morning urine collections compared with 24 hour specimens, **1280**

Beclomethasone dipropionate
Comparison of fluticasone propionate and beclomethasone dipropionate on direct and indirect measurements of bronchial hyperresponsiveness in patients with stable asthma, **1044**
Differences in aerodynamic particle size distributions of innovator and generic beclomethasone dipropionate aerosols used with and without a large volume spacer, **846**
Effects on bone metabolism of inhaled beclomethasone dipropionate with and without oral prednisolone in asthmatic men compared with controls, **443P**

Beta agonist
Abnormal myocardial repolarisation in response to hypoxaemia and fenoterol, **1062**
Acute severe asthma: oxygen and high dose beta agonist during transfer for all? *editorial*, **1**
Asthma and the beta agonist debate, **S5**
Beta agonist type and outcome following severe life threatening attack of asthma, **450P**
Risk of severe life threatening asthma and death and type of prescribed beta agonist: an example of confounding by severity, **449P**

Beta-lactamase producing bacteria, Relation between beta-lactamase producing bacteria and patient characteristics in chronic obstructive pulmonary disease, **249**

$Beta_2$ adrenergic receptor gene, $Beta_2$ adrenergic receptor gene restriction fragment length polymorphism and bronchial asthma, **353**

$Beta_2$ adrenoceptor
An open, prospective comparison of $beta_2$ agonists given via nebuliser, Nebuhaler, or pressurised inhaler by ambulance crew as emergency treatment, **79**
$Beta_2$ agonist/antagonist activity of salbutamol: *letter*, **1227**
Comparison of nebulised salbutamol and ipratropium bromide with salbutamol alone in the treatment of chronic obstructive pulmonary disease, **834**
Comparison of the relative airways and systemic potencies of inhaled fenoterol and salbutamol in asthmatic patients, **54**
Effect of hypoxia and $beta_2$ agonists on the activity of the renin-angiotensin system, **475P**
Expression of the $beta_2$ adrenoceptor partial agonist/antagonist activity of salbutamol in states of low and high adrenergic tone, **134**: *letter*, **1227**
Lisinopril inhibits elevation of plasma angiotensin II by nebulised $beta_2$ agonists, **475P**
Subsensitivity of bronchodilator and systemic $beta_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **497**

$Beta_2$-integrin expression, $Beta_2$-integrin expression on circulating blood neutrophils from patients with cystic fibrosis, **434P**

Bicycle ergometer, Comparison of peak oxygen consumption during cycle and treadmill exercise in severe chronic obstructive pulmonary disease, **829**

Biopsy, Percutaneous lung biopsy with a fine bore cutting needle (Vacu-Cut): improved results using drill technique, **560**

Birth, Influence of maturity at birth on lung volume of preschool children, **447P**

Blackburn, Experience of miliary tuberculosis in a high incidence area: Blackburn 1978–93, **460P**

Blood pressure, Role of hypoxia on increased blood pressure in patients with obstructive sleep apnoea, **28**

Blood transfusion, Does blood transfusion affect long term survival following lung cancer resection? **436P**

Bone metabolism
Effects on bone metabolism of inhaled beclomethasone dipropionate with and without oral prednisolone in asthmatic men compared with controls, **443P**
Inhaled corticosteroids, asthma, and longer term bone metabolism: collagen crosslinks, osteocalcin, and densitometry after one year, **444P**
Markers of bone metabolism in asthmatic children receiving inhaled corticosteroids, **444P**
Bone turnover, Bone turnover and inhaled corticosteroids: *letter*, **103**

Breathing techniques, Chest physiotherapy in cystic fibrosis: a comparative study of autogenic drainage and the active cycle of breathing techniques with postural drainage, **165**: *letter*, **1123**
Breathlessness
Lack of effect of inhaled morphine on exercise-induced breathlessness in chronic obstructive pulmonary disease, **629**
Perception of asthma and breathlessness during exercise scored on a visual analogue scale, **467P**
Respiratory muscle strength in chronic heart failure, **625**
Treatment of breathlessness without incurring sedation or respiratory depression in anxious patients with COPD using Buspirone, **439P**
British Thoracic Society
The BTS and Doctors for Tobacco Law: working towards ending tobacco advertising: *editorial*, **6**
Winter 1994 meeting, London, proceedings, **431P**
Bronchial brushing, Multiple brushings with immediate Riu's stain via flexible fibreoptic bronchoscopy without fluoroscopic guidance in the diagnosis of peripheral pulmonary tumours, **18**
Bronchial carcinoma
Magnetic resonance imaging in the staging of bronchial carcinoma, **436P**
Neuroendocrine differentiation in lung carcinoma: *editorial*, **113**
Reliability of commercially available immunocytochemical markers for identification of neuroendocrine differentiation in bronchoscopic biopsies of bronchial carcinoma, **116**
Bronchial epithelial cells
Effect of erythromycin on *Haemophilus influenzae* endotoxin-induced release of inflammatory mediators by human bronchial epithelial cells in vitro, **471P**
Human bronchial epithelial cell mediators influence eosinophil and neutrophil adhesion of human endothelial cells in vitro, **438P**
Human bronchial epithelial cells express and release RANTES, **449P**
Mediators from human bronchial epithelial cells can influence eosinophil and neutrophil chemotaxis in vitro, **449P**
Bronchial epithelium, Expression of IL-1 beta and IL-1 receptor antagonist (IL-1ra) in asthmatic bronchial epithelium: effect of steroids, **448P**
Bronchial hyperreactivity, Effects of diurnal variation and prolonged refractoriness on repeated measurements of airways responsiveness to methacholine, **235**
Bronchial hyperresponsiveness, Comparison of fluticasone propionate and beclomethasone dipropionate on direct and indirect measurements of bronchial hyperresponsiveness in patients with stable asthma, **1044**
Bronchial mucosa, Co-amoxiclav levels in bronchial mucosa: *letter*, **429**
Bronchial provocation test
Occupational asthma caused by dry metabisulphite, **585**
Occupational asthma due to gas metal arc welding on mild steel, **587**
Potential for lung sound monitoring during bronchial provocation testing, **955**
Bronchial resection line status, Patient survival and bronchial resection line status in primary lung carcinoma, **437P**
Bronchial responsiveness, Bronchial responsiveness and symptoms in 5–6 year old children: a comparison of a direct and indirect challenge, **339**
Bronchiectasis
Bronchiectasis and homozygous (P_1ZZ) $alpha_1$-antitrypsin deficiency in a young man, **424**
Effect of recombinant human DNase in vitro and in vivo in bronchiectasis, **434P**
HIV related bronchiectasis: *letter*, **1227**
Recognition of outer membrane proteins of non-typeable *Haemophilus influenzae* by IgG subclass antibodies in serum and sputum from patients with bronchiectasis, **471P**
RFLP analysis of the P2 gene of *Haemophilus influenzae* isolates recovered from patients with bronchiectasis, **470P**
Bronchiolitis obliterans, Bronchiolitis obliterans with organising pneumonia: outcome, **S59**
Bronchitis
Coal miners aged over 70 seeking industrial injury benefit for bronchitis and emphysema, **441P**
Herpetic bronchitis with a broncho-oesophageal fistula, **906**
Pulmonary complications of HIV disease: 10 year retrospective evaluation of yields from bronchoalveolar lavage, 1983–93, **1240**
Broncho-oesophageal fistula, Herpetic bronchitis with a broncho-oesophageal fistula, **906**
Bronchoalveolar lavage
Adult and paediatric size bronchoscopes for bronchoalveolar lavage in mechanically ventilated patients: yield and side effects, **290**
BAL fluid analysis and HIV-1 infection: *letter*, **701**
Impact of bronchoalveolar lavage in suspected pneumonia after renal transplantation, **465P**
Pulmonary complications of HIV disease: 10 year retrospective evaluation of yields from bronchoalveolar lavage, 1983–93, **1240**
Raised interleukin 10 levels in bronchoalveolar lavage samples in the adult respiratory distress syndrome, **457P**
Relation of bronchoalveolar lavage T lymphocyte subpopulations to rate of regression of active pulmonary tuberculosis, **869**
Relationship between cells obtained by bronchoalveolar lavage and survival in idiopathic pulmonary fibrosis, **1087**

Relative diagnostic value of gastric lavage, bronchoalveolar lavage, and sputum examination in the diagnosis of pulmonary tuberculosis, **443P**

Bronchoalveolar lavage cells, Nitric oxide production by human bronchoalveolar lavage cells in culture, **451P**

Bronchoconstriction, Angiotensin II potentiates, in vitro and in vivo, methacholine-induced bronchoconstriction, **475P**

Bronchodilator subsensitivity, Subsensitivity of bronchodilator and systemic beta$_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **497**

Bronchogenic carcinoma

Bronchogenic carcinoma: incidence of metastases to normal sized lymph nodes, **1267**

Value of cervical mediastinoscopy combined with anterior mediastinotomy in bronchogenic carcinoma of the left upper lobe, **473P**

Bronchoscopy

Adult and paediatric size bronchoscopes for bronchoalveolar lavage in mechanically ventilated patients: yield and side effects, **290**

Audit of inpatient bronchoscopy requests: should hospital physicians have open access?, **446P**

Bronchoscopic findings in a case of bronchopulmonary histoplasmosis, **314**

Guidelines for care during bronchoscopy: *letter*, **1123**

Bronchospasm, Effect of an inhaled neutral endopeptidase inhibitor, phosphoramidon, on baseline airway calibre and bronchial responsiveness to bradykinin in asthma, **505**

Bronchus, Dieulafoy's disease of the bronchus, **697**

Bronchus-associated lymphoid tissue, Bronchus-associated lymphoid tissue (BALT) in the lungs of children who had died from sudden infant death syndrome and other causes, **658**

Budesonide

Effects of topical budesonide on epithelial restitution in vivo in guinea pig trachea, **785**

Efficacy of once daily budesonide via Turbohaler in moderate asthma, **470P**

Long term clinical comparison of single versus twice daily administration of inhaled budesonide in moderate asthma, **1270**

Placebo controlled study comparing budesonide 256 µg and 128 µg with fluticasone propionate 200 µg in patients with seasonal allergic rhinitis, **468P**

Study to compare the efficacy of budesonide (Pulmicort Turbohaler) and fluticasone propionate (Flixotide Diskhaler) in the treatment of asthma, **469P**

Bulla, Replacement of one lung by a large bulla in active tuberculosis, **427**

***Burkholderia* (*Pseudomonas*) *cepacia*,** Outcome of *Burkholderia* (*Pseudomonas*) *cepacia* colonisation in children with cystic fibrosis following a hospital outbreak, **1194**

Capsaicin, Effects of topical capsaicin in seasonal allergic rhinitis, **225**

Capsaicin cough challenge, Capsaicin cough challenge: relationship to airways obstruction and reactivity in asthma, **466P**

Carbachol airway challenge, Potential for lung sound monitoring during bronchial provocation testing, **955**

Carbon monoxide transfer factor, Comparison of the single breath with the intrabreath method for the measurement of the carbon monoxide transfer factor in subjects with and without airways obstruction, **902**

Carcinoembryonic antigen, Effect of cigarette smoke on the mRNA and protein expression of carcinoembryonic antigen, a possible chemoattractant for neutrophils in human bronchioloalveolar tissues, **651**

Cardiopulmonary bypass

Ca^{2+}-independent nitric oxide synthase activity in human lung after cardiopulmonary bypass, **403**

NO news is good news: *editorial*, **323**

Plasma 4-hydroxy-2-nonenal levels during cardiopulmonary bypass and their relationship to the iron loading of transferrin, **458P**

Carmustine, Recall lung pneumonitis due to carmustine after radiotherapy, **1116**: commentary, **1121**

Case reports, Commentary on case reports, **100**

CD4 counts, Changes to alveolar macrophage phenotype in HIV infected individuals with normal CD4 counts and no respiratory disease, **777**

CD10, The role of CD10 in the modulation of neutrophil function, **478P**

Cefaclor MR, Cefaclor MR versus co-amoxiclav in the treatment of acute exacerbations of chronic bronchitis in general practice, **465P**

Cell deformability, Neutrophil sequestration in rat lungs, **661**

Ceramic fibre manufacturers, Are the respiratory health effects seen in ceramic fibre manufacturers due to the dust rather than the fibre exposure? **442P**

Cervical mediastinoscopy, Value of cervical mediastinoscopy combined with anterior mediastinotomy in bronchogenic carcinoma of the left upper lobe, **473P**

Chemokines, Induction of macrophage inflammatory protein 2 gene expression by interleukin 1β in rat lung, **1136**

Chemotherapy

Combined chemotherapy and radiotherapy in advanced pulmonary blastoma: *letter*, **591**

Management of residual thymic cysts in patients treated for mediastinal Hodgkin's disease, **1118**: commentary, **1121**

Neoadjuvant chemotherapy in stage IIIa non-small cell lung cancer, **S25**

Chickenpox pneumonia, Fatal chickenpox pneumonia in an asthmatic patient on oral steroids and methotrexate, **422**: *letter*, **918**

Childhood asthma

Childhood asthma: what is it and where is it going? *editorial*, **1027**

Posterior subcapsular cataract and inhaled corticosteroid therapy, **674**

Children

Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**

Bronchial responsiveness and symptoms in 5–6 year old children: a comparison of a direct and indirect challenge, **339**

Characteristics of wheeze during histamine-induced airways obstruction in children with asthma, **143**

Ciliary function tests: can we detect recurrent microaspiration in children with gastro-oesophageal reflux? **472P**

Compliance with inhaled asthma medication in preschool children, **1274**

Endobronchial leiomyoma, **101**

Home environment and asthma in Kenyan schoolchildren, **74**

Impact of structured nurse-led discharge planning on outcome in children hospitalised with acute asthma, **464P**

Influence of maturity at birth on lung volume of preschool children, **447P**

Inhaled frusemide and exercise-induced bronchoconstriction in children with asthma, **677**

Maternal asthma, premature birth and the risk of respiratory morbidity in primary schoolchildren, **448P**

Maternal asthma, premature birth, and the risk of respiratory morbidity in schoolchildren in Merseyside, **525**

Obstructive sleep apnoea syndrome in infants and children: established facts and unsettled issues, **1204**

Outcome of *Burkholderia* (*Pseudomonas*) *cepacia* colonisation in children with cystic fibrosis following a hospital outbreak, **1194**

Role of viral infections in the inception of childhood asthma and allergies: *letter*, **701**

Surgical management of pulmonary hydatid cysts in children, **396**

Value of flexible fibreoptic bronchoscopy in children with persisting lobar collapse, **447P**

Variability of peak expiratory flow rate in children: short and long term reproducibility, **35**

***Chlamydia pneumoniae*,** *Chlamydia pneumoniae*: defining the clinical spectrum of infection requires precise laboratory diagnosis, **S43**

Chloride solution, Effect of a single nebulised dose of frusemide on cough induced by low chloride solution in patients with chronic dry cough of unknown aetiology, **466P**

Chronic airflow obstruction, A prospective audit of the inpatient management of patients with chronic airflow obstruction, **455P**

Chronic airways obstruction, Measurement of effective alveolar carbon dioxide tension during spontaneous breathing in normal subjects and patients with chronic airways obstruction, **240**

Chronic bronchitis

Bronchial inflammation in chronic bronchitis assessed by measurement of cell products in bronchial lavage fluid, **360**

Cefaclor MR versus co-amoxiclav in the treatment of acute exacerbations of chronic bronchitis in general practice, **465P**
Effects of winter pollution on respiratory symptoms and medication use in subjects with asthma and chronic bronchitis, **461P**

Chronic lung disease of prematurity
Role of elevated plasma soluble ICAM-1 and bronchial lavage fluid IL-8 levels as markers of chronic lung disease in premature infants, **1073**
Short term respiratory outcome in infants with chronic lung disease of prematurity: risk of admission/sudden infant death syndrome, **447P**

Chronic non-specific lung disease, Changes in neuroendocrine elements in bronchial mucosa in chronic lung disease in adults, **551**

Chronic obstructive pulmonary disease
Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**
Air pollution and COPD: *letter*, **917**
Bicycle ergometer underestimates symptom-limited maximal $\dot{V}O_2$ in subjects with moderate chronic obstructive pulmonary disease: implications for clinical testing and rehabilitation programmes, **440P**
Bronchial inflammation in chronic bronchitis assessed by measurement of cell products in bronchial lavage fluid, **360**
Changes in symptoms, peak expiratory flow, and sputum flora during treatment with antibiotics of exacerbations in patients with chronic obstructive pulmonary disease in general practice, **758**
Comparative dose-response study of three anticholinergic agents and fenoterol using a metered dose inhaler in patients with chronic obstructive pulmonary disease, **62**
Comparison of nebulised salbutamol and ipratropium bromide with salbutamol alone in the treatment of chronic obstructive pulmonary disease, **834**
Comparison of peak oxygen consumption during cycle and treadmill exercise in severe chronic obstructive pulmonary disease, **829**
Early effect of long term oxygen therapy on quality of life in patients with COPD, **455P**
Effect of *N*-acetyl cysteine on thiol levels: *letter*, **215**
Effects of ACE inhibition on sodium excretion in COPD: *letter*, **430**
Effects of air pollution on symptoms and peak expiratory flow measurements in subjects with obstructive airways disease, **149**: *letter*, **917**
Efficacy of inhaled salmeterol in the management of smokers with chronic obstructive pulmonary disease, **750**
Evaluation of the effectiveness of four different inhalers in patients with chronic obstructive pulmonary disease, **1183**
Explanation to patients with COPD improves quality of life after discharge, **455P**
Hormonal, renal, and autonomic nerve factors involved in the excretion of sodium and water during dynamic salt and water loading in hypoxaemic chronic obstructive pulmonary disease, **838**
Interleukin 8 may be involved in the recruitment of neutrophils into the respiratory tract of smokers and patients with chronic obstructive pulmonary disease, **479P**
Lack of effect of inhaled morphine on exercise-induced breathlessness in chronic obstructive pulmonary disease, **629**
Long term benefits of rehabilitation at home on quality of life and exercise tolerance in patients with chronic obstructive pulmonary disease, **824**
Magnetic stimulation of the diaphragm in patients with chronic hyperinflation, **440P**
Measurement of maximal exercise capacity in patients with severe chronic obstructive pulmonary disease, **440P**
Mechanical loading and control of breathing in patients with severe chronic obstructive pulmonary disease, **127**
Metabolic and cardiorespiratory responses to inspiratory threshold loading in COPD, **440P**
Nocturnal saturation and respiratory muscle function in patients with chronic obstructive pulmonary disease, **610**
Non-invasive mechanical ventilation in acute respiratory failure due to chronic obstructive pulmonary disease: correlates for success, **755**: *letter*, **1327**
Relation between beta-lactamase producing bacteria and patient characteristics in chronic obstructive pulmonary disease, **249**
Respiratory muscle activity during rapid eye movement (REM) sleep in patients with chronic obstructive pulmonary disease, **376**
Review of the prescription of domiciliary long term oxygen therapy in Scotland, **1103**: correction, **1327**
Significant differences in flow standardised breath sound spectra in patients with chronic obstructive pulmonary disease, stable asthma, and healthy lungs, **1285**
Spirometric parameters and quality of life in patients with COPD from the ISOLDE study, **439P**
Treatment of breathlessness without incurring sedation or respiratory depression in anxious patients with COPD using Buspirone, **439P**
Tumour necrosis factor alpha is present in high concentrations in the airways of patients with chronic obstructive pulmonary disease, **479P**
Twelve months follow up of autonomic neuropathy in patients with severe COPD, **455P**

Chronic respiratory failure, Outcome of domiciliary nasal intermittent positive pressure ventilation in restrictive and obstructive disorders, **604**

Chylothorax
Chylothorax due to *Mycobacterium tuberculosis*, **1019**
Sarcoidosis presenting with chylothorax, **1324**

Ciliary activity, Inhibition of substance P degradation and its effect on human respiratory ciliary activity in vitro, **472P**

Ciliary disorientation
Ciliary disorientation alone can cause primary ciliary dyskinesia syndrome, **472P**
Primary and secondary ciliary disorientation, **472P**

Ciliary dyskinesia syndrome, Ciliary disorientation alone can cause primary ciliary dyskinesia syndrome, **472P**

Ciliary function tests, Ciliary function tests: can we detect recurrent microaspiration in children with gastro-oesophageal reflux? **472P**

Circadian rhythm, Effects of diurnal variation and prolonged refractoriness on repeated measurements of airways responsiveness to methacholine, **235**

Cirrhosis, Pulmonary endocrine cells in plexogenic pulmonary arteriopathy associated with cirrhosis, **92**

Co-amoxiclav
Cefaclor MR versus co-amoxiclav in the treatment of acute exacerbations of chronic bronchitis in general practice, **465P**
Co-amoxiclav levels in bronchial mucosa: *letter*, **429**

Coal miners, Coal miners aged over 70 seeking industrial injury benefit for bronchitis and emphysema, **441P**

Cobalt chromium dust, Exposure to cobalt chromium dust and lung disorders in dental technicians, **769**

Cochrane Collaboration, The "Cochrane Collaboration": *adventitia*, **293**

Colour Doppler ultrasound, Transthoracic needle biopsy of thoracic tumours by a colour Doppler ultrasound puncture guiding device, **1258**

Community-acquired pneumonia, Aetiology of community-acquired pneumonia: a prospective study among adults requiring admission to hospital, **543**

Computed tomographic (CT) scanning
Alterations in CT parenchymal density gradients in lone pulmonary hypertension complicating systemic sclerosis, **454P**
Bronchogenic carcinoma: incidence of metastases to normal sized lymph nodes, **1267**
Demonstration of supernumerary tracheal bronchus by computed tomographic scanning and magnetic resonance imaging, **426**
Excessive thoracic computed tomographic scanning in sarcoidosis, **1264**

Congenital lobar emphysema, Adult congenital lobar emphysema in pregnancy, **909**

Continuous positive airway pressure
Adequacy of prescribing nasal continuous positive airway pressure therapy for the sleep apnoea/hypopnoea syndrome on the basis of night time respiratory recording variables, **969**
Nasal continuous positive airway pressure treatment for obstructive sleep apnoea, **1106**
Variation in CPAP requirement using an intelligent CPAP device, **477P**

Cor pulmonale, Hypoxaemia and release of endothelin-1, **1308**

Cordotomy, Pleurectomy for persistent pain in benign asbestos-related pleural disease, **181**

Corrections, **592**, **1124**, **1228**, **1327**

Corticosteroid sparing agents, Corticosteroid sparing agents in asthma, **577**
Corticosteroids
Bone turnover and inhaled corticosteroids: *letter*, **103**
Posterior subcapsular cataract and inhaled corticosteroid therapy, **674**
Randomised trial of corticosteroids in the treatment of tuberculous pleurisy, **1305**
Cortisol, Measuring the systemic effects of inhaled beclomethasone: timed morning urine collections compared with 24 hour specimens, **1280**
Corynebacterium parvum, *Corynebacterium parvum* for malignant pleural effusions: *letter*, **104**
Cost, District nebuliser compressor service: reliability and costs, **82**
Cotton dust, Accelerated lung function decline in textile workers: cotton dust, cigarette smoking or both?, **462P**
Cough, Effect of a single nebulised dose of frusemide on cough induced by low chloride solution in patients with chronic dry cough of unknown aetiology, **466P**
Crofton Cup II, The Crofton Cup II: non-tobacco sponsored golf goes full strength – players please: *adventitia*, **395**
Cross infection, Outcome of *Burkholderia* (*Pseudomonas*) *cepacia* colonisation in children with cystic fibrosis following a hospital outbreak, **1194**
Cryptogenic fibrosing alveolitis
Comparison of respiratory function after single lung transplantation for fibrosing alveolitis and emphysema, **467P**
Cryptogenic fibrosing alveolitis with normal lung volumes, **433P**
Epstein-Barr virus and cryptogenic fibrosing alveolitis: *editorial*, **1232**
Epstein-Barr virus replication within pulmonary epithelial cells in cryptogenic fibrosing alveolitis, **1234**
Epstein-Barr virus in type II pneumocytes in cryptogenic fibrosing alveolitis, **432P**
In vitro biological effect of an antibody to an epithelial cell autoantigen in cryptogenic fibrosing alveolitis, **432P**
Rapid clearance of inhaled 99mTc-DTPA independently predicts lung functional decline in fibrosing alveolitis associated with systemic sclerosis, **433P**
Th2 lymphocytes predominate in the pulmonary interstitium of patients with cryptogenic fibrosing alveolitis, **432P**
Tumour necrosis factor alpha regulation by interleukin 10 in alveolar macrophages from patients with sarcoidosis or fibrosing alveolitis, **457P**
Cuirass, Effects of short term high frequency negative pressure ventilation on gas exchange using the Hayek oscillator in normal subjects, **44**
Cyclic GMP levels, Cyclic GMP levels are raised in endothelium-denuded rat pulmonary artery after LPS treatment, **453P**
Cyclosporin A, Effect of cyclosporin A on the expression of activation markers by T lymphocytes in chronic severe asthma, **476P**
Cysteinyl leukotrienes, Cysteinyl leukotrienes in asthma: current state of therapeutic evaluation, **1005**
Cystic fibrosis
An alternative aerosol delivery system for amiloride, **517**
Beta$_2$-integrin expression on circulating blood neutrophils from patients with cystic fibrosis, **434P**
Bilateral sequential lung transplantation for end stage septic lung disease, **565**
Chest physiotherapy in cystic fibrosis: a comparative study of autogenic drainage and the active cycle of breathing techniques with postural drainage, **165**: *letter*, **1123**
Cystic fibrosis: transition from paediatric to adult physician's care: *editorial*, **1031**
Different perceptions of disease severity and self care between patients with cystic fibrosis, their close companions, and physician, **794**
DNA concentration and length in sputum of patients with cystic fibrosis during inhalation with recombinant DNase, **880**
Effect of nebulised recombinant DNase on mediators of inflammation in cystic fibrosis, **465P**
Efficiency of oxidative work performance of skeletal muscle in patients with cystic fibrosis, **980**
Genetic and clinical features of patients with cystic fibrosis diagnosed after the age of 16 years, **1301**
Liposome-mediated *CFTR* gene transfer to the nasal epithelium of patients with cystic fibrosis, **435P**
Long term prognosis of patients with cystic fibrosis in relation to early detection by neonatal screening and treatment in a cystic fibrosis centre, **712**
Medium term treatment of stable stage cystic fibrosis with recombinant human DNase I, **333**
Neonatal screening for cystic fibrosis: *editorial*, **705**
Nocturnal oximetry and transcutaneous CO_2 in patients with cystic fibrosis, **478P**
Nocturnal oxygen desaturation and spirometric parameters in adults with cystic fibrosis, **539**
Outcome of *Burkholderia* (*Pseudomonas*) *cepacia* colonisation in children with cystic fibrosis following a hospital outbreak, **1194**
Outcome of pregnancy in women with cystic fibrosis, **170**
Paradoxical vocal cord adduction in an adolescent with cystic fibrosis, **694**: *commentary*, **696**: *letter*, **1228**
Pulmonary deposition and disappearance of aerosolised secretory leucocyte protease inhibitor, **645**
Regional microbiology of the lung in patients with cystic fibrosis, **434P**
rhDNase in cystic fibrosis: *editorial*, **321**
Three cases of pulmonary aspergilloma in adult patients with cystic fibrosis, **805**
Treatment of pulmonary aspergilloma in cystic fibrosis by percutaneous instillation of amphotericin B via indwelling catheter, **809**
Cytokines
Cytokine expression in normal, atopic, and asthmatic subjects using the combination of sputum induction and the polymerase chain reaction, **1033**
Diagnostic value of blood cytokine concentrations in acute pneumonia, **1253**
Cytomegalovirus
Detection of human cytomegalovirus antigenaemia: a rapid diagnostic technique for predicting cytomegalovirus infection/pneumonitis in lung and heart transplant recipients, **9**
Opportunities for diagnosing cytomegalovirus in pulmonary infections: *editorial*, **3**
Cytomegalovirus antigen, Analysis of lymphocytic proliferation and interleukin production in response to CMV antigen following lung transplantation, **471P**
Cytoskeletal disruption, Ozone-induced export of glutathione and epithelial permeability in vitro is associated with cytoskeletal disruption, **480P**

Death certification, Cigarette smoking and death certification, **446P**
Delayed type hypersensitivity, Temporal pattern of enhanced expression of procollagen-1 in tuberculin induced delayed type hypersensitivity, **459P**
Dental technicians, Exposure to cobalt chromium dust and lung disorders in dental technicians, **769**
DeVilbiss nebulisers, Differences in aerosol output and airways responsiveness between the DeVilbiss 40 and 45 hand held nebulisers, **635**
Diagnosis, Diagnostic value of blood cytokine concentrations in acute pneumonia, **1253**
Diaphragm
In vivo assessment of diaphragm contraction by ultrasound in normal subjects, **1157**
Respiratory muscle strength in chronic heart failure, **625**
Software compensation for lung volume in assessment of inspiratory muscle strength and endurance, **230**
Unilateral magnetic stimulation of the phrenic nerve, **1162**
Diary, Validation of an asthma quality of life diary in a clinical trial, **724**
Dietary sodium, Effect of dietary sodium on airways responsiveness and its importance in the epidemiology of asthma: an evaluation in three areas of northern England, **941**
Dieulafoy's disease, Dieulafoy's disease of the bronchus, **697**
Diffuse panbronchiolitis, Long term effect of erythromycin therapy in patients with chronic *Pseudomonas aeruginosa* infection, **1246**
Diffuse pulmonary fibrosis, Diffuse pulmonary fibrosis and Hermansky-Pudlak syndrome: *letter*, **591**
Discharge rates, Audit of discharge rates in respiratory outpatient clinics: NHS versus the private sector, **447P**
Disseminated intravascular coagulation, Incidence of pulmonary thromboembolism, infarction and haemorrhage in disseminated intravascular coagulation: a necroscopic analysis, **160**

Doctors for Tobacco Law, The BTS and Doctors for Tobacco Law: working towards ending tobacco advertising: *editorial*, **6**
Domestic dust, Levels of contamination of domestic dust with endotoxin and *Der p* I, **462P**
Domiciliary oxygen, Review of the prescription of domiciliary long term oxygen therapy in Scotland, **1103**: correction, **1327**
Doppler, Doppler assessment of hypoxic pulmonary vasoconstriction and susceptibility to high altitude pulmonary oedema, **22**
Drug addiction, Lung disease induced by drug addiction: *editorial*, **1125**
Drug compliance, Compliance with inhaled asthma medication in preschool children, **1274**
Drug delivery, New perspectives on inhaled drug delivery and systemic bioactivity: *editorial*, **105**: correction, **592**
Drug resistance, Mycobacterial infection in HIV seropositive and seronegative populations, 1987–93, **1147**
Dry powder inhaler, An alternative aerosol delivery system for amiloride, **517**
Duchenne muscular dystrophy
Apnoea in Duchenne muscular dystrophy: *letter*, **1123**
Effect of spinal surgery on lung function in Duchenne muscular dystrophy, **1173**
Dust
Accelerated lung function decline in textile workers: cotton dust, cigarette smoking or both?, **462P**
Are the respiratory health effects seen in ceramic fibre manufacturers due to the dust rather than the fibre exposure?, **442P**
Levels of contamination of domestic dust with endotoxin and *Der p* I, **462P**
Dust exposure, Exposure to cobalt chromium dust and lung disorders in dental technicians, **769**
Dyspnoea, Static lung compliance in chronic heart failure: relation with dyspnoea and exercise capacity, **245**

East London, Occupational asthma in East London, **432P**
Edentrace II recorder, Comparison of laboratory polysomnography with home use of the Edentrace II recorder in the diagnosis of sleep apnoea, **478P**
Eformoterol
Comparison of the efficacy and tolerability of eformoterol and salbutamol dry powder capsules for inhalation in elderly asthmatic patients, **469P**
Subsensitivity of bronchodilator and systemic beta$_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **497**
Elastin fibre detection, Use of elastin fibre detection in the diagnosis of ventilator associated pneumonia, **14**
Elderly
Comparison of the efficacy and tolerability of eformoterol and salbutamol dry powder capsules for inhalation in elderly asthmatic patients, **469P**
Tuberculosis incidence in Scotland is increasing in the young and the elderly, **460P**
Embolisation, Embolisation of pulmonary arteriovenous malformations: results and follow up in 32 patients, **719**
Emergency asthma services
Accident and emergency attendance for asthma: an opportunity for intervention? **449P**
Acute severe asthma: oxygen and high dose agonist during transfer for all? *editorial*, **1**
Effectiveness of nebulised salbutamol administered in ambulances to patients with severe acute asthma, **81**
Open, prospective comparison of beta$_2$ agonists given via nebuliser, Nebuhaler, or pressurised inhaler by ambulance crew as emergency treatment, **79**
Risk factors for recurrent emergency department visits for asthma, **520**
Short-term association between air pollution and emergency room visits for asthma in Barcelona, **1051**
Variability in the hospital management of acute emergencies and implications for future savings, **446P**
Emphysema
Coal miners aged over 70 seeking industrial injury benefit for bronchitis and emphysema, **441P**
Comparison of respiratory function after single lung transplantation for fibrosing alveolitis and emphysema, **467P**
Single lung transplantation for end stage emphysema, **562**
Employment status, Employment status and the perceived association of occupation with respiratory symptoms in young adults with and without asthma, **431P**
Empyema
Empyema and mediastinitis with retropharyngeal abscess: *letter*, **216**
Empyema of the thorax: a four year experience from Pakistan, **466P**
Streptococcus milleri pulmonary disease: a review and clinical description of 25 patients, **1093**
Use of nebulised liposomal amphotericin B in the treatment of *Aspergillus fumigatus* empyema, **1321**: commentary, **1323**
End stage septic lung disease, Bilateral sequential lung transplantation for end stage septic lung disease, **565**
Endobronchial leiomyoma, Endobronchial leiomyoma, **101**
Endobronchial mass, Pulmonary arterial aneurysm presenting as an endobronchial mass, **1013**: commentary, **1016**
Endothelial cells, Human bronchial epithelial cell mediators influence eosinophil and neutrophil adhesion of human endothelial cells in vitro, **438P**
Endothelin, Hypoxaemia and release of endothelin-1, **1308**
Endothelin receptors, Endothelin receptors in rat pulmonary arteries and arterioles: effect of pulmonary hypertension, **452P**
Endothelin-1, Endothelin-1 induced contraction in human pulmonary arteries: mediated by ETA receptors in large arteries but non-ETA/non-ETB receptors in resistance arteries, **453P**
Endotoxin, Levels of contamination of domestic dust with endotoxin and *Der p* I, **462P**
Endotracheal aspirates, Use of elastin fibre detection in the diagnosis of ventilator associated pneumonia, **14**
Endotracheal intubation, Comparison of "elective" and "emergency" initiation of nocturnal assisted ventilation: importance of avoiding endotracheal intubation, **435P**
England and Wales
More ambiguities and inaccuracies in the notification of cases of tuberculosis in England and Wales, **459P**
Trends in tuberculosis notifications in England and Wales, 1982–93, **459P**
Environmental particulate, Toxicity of environmental particulate: studies with ultrafine titanium dioxide, **461P**
Eosinophils
Bronchial inflammation in chronic bronchitis assessed by measurement of cell products in bronchial lavage fluid, **360**
Comparative study of the effects of different glucocorticosteroids on eosinophil survival primed by cultured epithelial cell supernatants obtained from nasal mucosa and nasal polyps, **270**
Exacerbations of asthma without sputum eosinophilia, **1057**
Human bronchial epithelial cell mediators influence eosinophil and neutrophil adhesion of human endothelial cells in vitro, **438P**
Increased H202 generation by primed human eosinophils following allergen challenge, **448P**
Inhibition of GM-CSF induced eosinophil survival and stimulation of DNA fragmentation by cyclic AMP, **439P**
Mediators from human bronchial epithelial cells can influence eosinophil and neutrophil chemotaxis in vitro, **449P**
Epithelial cell autoantigen, An in vitro biological effect of an antibody to an epithelial cell autoantigen in cryptogenic fibrosing alveolitis, **432P**
Epithelial permeability, Ozone-induced export of glutathione and epithelial permeability in vitro is associated with cytoskeletal disruption, **480P**
Epithelial restitution, Effects of topical budesonide on epithelial restitution in vivo in guinea pig trachea, **785**
Epstein-Barr virus
An in vitro biological effect of an antibody to an epithelial cell autoantigen in cryptogenic fibrosing alveolitis, Epstein-Barr virus in type II pneumocytes in cryptogenic fibrosing alveolitis, **432P**
Epstein-Barr virus and cryptogenic fibrosing alveolitis: *editorial*, **1232**
Epstein-Barr virus replication within pulmonary epithelial cells in cryptogenic fibrosing alveolitis, **1234**
Epworth Sleepiness Scale, Use of the Epworth Sleepiness Scale to monitor response to treatment with nasal continuous positive airways pressure in patients with obstructive sleep apnoea, **477P**
Erythromycin
Effect of erythromycin on *Haemophilus influenzae* endotoxin-induced release of inflammatory mediators by human bronchial epithelial cells in vitro, **471P**

Long term effect of erythromycin therapy in patients with chronic *Pseudomonas aeruginosa* infection, **1246**
***Escherichia coli* pneumonia**, Late as well as early neutrophil influx is CD18 dependent in *E. coli* pneumonia, **471P**
Essential hyperhidrosis, Cardiopulmonary exercise testing following bilateral thoracoscopic sympathicolysis in patients with essential hyperhidrosis, **1097**
Ethnic origin, Ethnic origin and lung function of infants born prematurely, **773**
Everest Expedition, Respiratory observations on trekkers accompanying the 40th anniversary British Everest Expedition, **467P**
Ex-smokers, Lung cancer in ex-smokers, **473P**
Exercise
Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**
Bicycle ergometer underestimates symptom-limited maximal $\dot{V}O_2$ in subjects with moderate chronic obstructive pulmonary disease: implications for clinical testing and rehabilitation programmes, **440P**
Cardiopulmonary exercise testing following bilateral thoracoscopic sympathicolysis in patients with essential hyperhidrosis, **1097**
Comparison of peak oxygen consumption during cycle and treadmill exercise in severe chronic obstructive pulmonary disease, **829**
Efficiency of oxidative work performance of skeletal muscle in patients with cystic fibrosis, **980**
Expiratory muscle training and sensation of respiratory effort during exercise in normal subjects, **366**
Inhaled frusemide and exercise-induced bronchoconstriction in children with asthma, **677**
Long term benefits of rehabilitation at home on quality of life and exercise tolerance in patients with chronic obstructive pulmonary disease, **824**
Measurement of maximal exercise capacity in patients with severe chronic obstructive pulmonary disease, **440P**
Perception of asthma and breathlessness during exercise scored on a visual analogue scale, **467P**
Static lung compliance in chronic heart failure: relation with dyspnoea and exercise capacity, **245**
Upper respiratory tract infections and exercise: *editorial*, **1229**
Expiration, Time constants during tidal expiration and maximally forced expiration, **468P**
Expiratory muscle training, Expiratory muscle training and sensation of respiratory effort during exercise in normal subjects, **366**
Extracorporeal membrane oxygenation, Successful extracorporeal membrane oxygenation (ECMO) support for fulminant community-acquired pneumococcal pneumonia, **1317**: commentary, **1323**

Family size, Association of family size with atopic disease, **448P**
Fenoterol
Comparative dose-response study of three anticholinergic agents and fenoterol using a metered dose inhaler in patients with chronic obstructive pulmonary disease, **62**
Comparison of the relative airways and systemic potencies of inhaled fenoterol and salbutamol in asthmatic patients, **54**
Effects of fenoterol on ventilatory responses to hypoxia and hypercapnia in normal subjects, **139**
Mechanical loading and control of breathing in patients with severe chronic obstructive pulmonary disease, **127**
FEV_1, Effects of propranolol inhalation on the diurnal increase in FEV_1 and on propranolol airways responsiveness in atopic subjects with asthma, **937**
Fibreoptic bronchoscopy, Multiple brushings with immediate Riu's stain via flexible fibreoptic bronchoscopy without fluoroscopic guidance in the diagnosis of peripheral pulmonary tumours, **18**
Fibroblasts, Enhanced migration of fibroblasts derived from lungs with fibrotic lesions, **984**
Fibrosing alveolitis, Prediction of pulmonary hypertension in patients with systemic sclerosis and fibrosing alveolitis, **454P**
Fibrosis, Oxidants/antioxidants in idiopathic pulmonary fibrosis, **S53**
Fine needle biopsy, Primary amyloidosis presenting as an isolated mediastinal mass: diagnosis by fine needle biopsy, **908**
Fish oil, Dietary fish oil and airways obstruction, **S11**
Flexible fibreoptic bronchoscopy, Value of flexible fibreoptic bronchoscopy in children with persisting lobar collapse, **447P**
[^{18}F]-Fluorodeoxyglucose, Imaging allergen-invoked airways inflammation in atopic asthma in vivo using [^{18}F]-fluorodeoxyglucose and positron emission tomography, **438P**
Fluticasone propionate
Comparison of fluticasone propionate and beclomethasone dipropionate on direct and indirect measurements of bronchial hyperresponsiveness in patients with stable asthma, **1044**
Nitric oxide metabolites in nasal lavage fluid of patients with house dust mite allergy, **275**
Placebo controlled study comparing budesonide 256 µg and 128 µg with fluticasone propionate 200 µg in patients with seasonal allergic rhinitis, **468P**
Study to compare the efficacy of budesonide (Pulmicort Turbohaler) and fluticasone propionate (Flixotide Diskhaler) in the treatment of asthma, **469P**
Suppressive effects of therapeutic doses of fluticasone propionate on the HPA axis in healthy volunteers, **444P**
Flutropium bromide, Comparative dose-response study of three anticholinergic agents and fenoterol using a metered dose inhaler in patients with chronic obstructive pulmonary disease, **62**
FMLP, Effects of interleukin 8 on neutrophil function and the interaction with FMLP, **479P**
Forced vital capacity, Effect of spinal surgery on lung function in Duchenne muscular dystrophy, **1173**
Formaldehyde, Occupational asthma due to glutaraldehyde and formaldehyde in endoscopy and *x* ray departments, **156**
Formoterol, Regular formoterol treatment in mild asthma: effect on bronchial reactivity during and after treatment, **470P**
Frusemide
Effect of a single nebulised dose of frusemide on cough induced by low chloride solution in patients with chronic dry cough of unknown aetiology, **466P**
Inhaled frusemide and exercise-induced bronchoconstriction in children with asthma, **677**

Gamma scintigraphy, Aerosol deposition in the human lung following administration from a microprocessor controlled pressurised metered dose inhaler, **639**
Gamma/delta cells, Gamma/delta T lymphocytes in the blood of patients with sarcoidosis, **858**
Gas phase cigarette smoke, Nitration of tyrosine by gas phase cigarette smoke: a mechanism of biomolecular damage by exposure to excess nitric oxide?, **480P**
Gastric lavage, Relative diagnostic value of gastric lavage, bronchoalveolar lavage, and sputum examination in the diagnosis of pulmonary tuberculosis, **443P**
Gastro-oesophageal reflux
Ciliary function tests: can we detect recurrent microaspiration in children with gastro-oesophageal reflux?, **472P**
Simultaneous tracheal and oesophageal pH measurements in asthmatic patients with gastro-oesophageal reflux, **201**
Gene therapy, Gene therapy for respiratory diseases: potential applications and difficulties: *editorial*, **484**
General practice
Changes in symptoms, peak expiratory flow, and sputum flora during treatment with antibiotics of exacerbations in patients with chronic obstructive pulmonary disease in general practice, **758**
Peak flow based asthma self-management: a randomised controlled study in general practice, **851**
Generic products, Differences in aerodynamic particle size distributions of innovator and generic beclomethasone dipropionate aerosols used with and without a large volume spacer, **846**
Genetic markers, Use of genetic markers to identify precancerous bronchial lesions in lung carcinogenesis, **474P**
Genioglossus muscle, Genioglossus muscle response to negative airways pressure in awake humans: lack of effect of stimulus timing within the respiratory cycle, **444P**
Global health, Prospects for global health: lessons from tuberculosis: *editorial*, **487**
Glucocorticoids, Effects of topical budesonide on epithelial restitution in vivo in guinea pig trachea, **785**
Glucocorticosteroids, Comparative study of the effects of different glucocorticosteroids on eosinophil survival primed by cultured epithelial cell supernatants obtained from nasal mucosa and nasal polyps, **270**

Glutaraldehyde, Occupational asthma due to glutaraldehyde and formaldehyde in endoscopy and *x* ray departments, **156**
Glutathione
Cigarette smoke and rat lung glutathione metabolism, **480P**
Contribution of neutrophils, tumour necrosis factor and glutathione to cigarette smoke-induced increased airspace permeability, **479P**
Ozone-induced export of glutathione and epithelial permeability in vitro is associated with cytoskeletal disruption, **480P**
Glutathione peroxidase, In vitro release of arachidonic acid metabolites, glutathione peroxidase, and oxygen-free radicals from platelets of asthmatic patients with and without aspirin intolerance, **490**
Golf, non-tobacco sponsored, The Crofton Cup II: non-tobacco sponsored golf goes full strength – players please: *adventitia*, **395**
Goserelin, Pulmonary benign metastasising leiomyoma: response to treatment with goserelin, **1225**
Granulocyte macrophage-CSF
Inhibition of GM-CSF induced eosinophil survival and stimulation of DNA fragmentation by cyclic AMP, **439P**
Synthesis of IL-8, GM-CSF and TNFalpha by cultured nasal epithelial cells from atopic rhinitic, atopic non-rhinitic and non-atopic non-rhinitic subjects and the effect of exposure to nitrogen dioxide, **448P**
Growth factor, Inhibition of growth factor-stimulated tyrosine phosphorylation induces apoptosis in small cell lung cancer cell lines, **457P**

Haemodialysis, Phrenic neuropathy in chronic renal failure, **793**
Haemophilus influenzae
Case control study of clinical features associated with ampicillin resistant *Haemophilus influenzae* infection, **465P**
Effect of erythromycin on *Haemophilus influenzae* endotoxin-induced release of inflammatory mediators by human bronchial epithelial cells in vitro, **471P**
Recognition of outer membrane proteins of non-typeable *Haemophilus influenzae* by IgG subclass antibodies in serum and sputum from patients with bronchiectasis, **471P**
RFLP analysis of the P2 gene of *Haemophilus influenzae* isolates recovered from patients with bronchiectasis, **470P**
Haemoptysis, Massive haemoptysis complicating prosthetic patch pulmonary embolism after atrial septal defect repair, **911**
Haemorrhage, Incidence of pulmonary thromboembolism, infarction and haemorrhage in disseminated intravascular coagulation: a necroscopic analysis, **160**
Hayek oscillator
Effects of short term high frequency negative pressure ventilation on gas exchange using the Hayek oscillator in normal subjects, **44**
Use of the Hayek oscillator in stable hypercapnic obstructive airways disease, **436P**
Headache, Methacholine induced headache, **319**
Heart failure
Respiratory muscle strength in chronic heart failure, **625**
Static lung compliance in chronic heart failure: relation with dyspnoea and exercise capacity, **245**
Heart transplantation
Detection of human cytomegalovirus antigenaemia: a rapid diagnostic technique for predicting cytomegalovirus infection/pneumonitis in lung and heart transplant recipients, **9**
Severe pulmonary vascular change in patients dying with right ventricular failure after heart transplantation, **210**
Heart-lung transplantation, Necrotic, ulcerative bronchitis, the presenting feature of lymphoproliferative disease following heart-lung transplantation, **205**
Hepatotoxicity, Hepatotoxicity caused by the combined action of isoniazid and rifampicin, **213**
Hermansky-Pudlak syndrome, Diffuse pulmonary fibrosis and Hermansky-Pudlak syndrome: *letter*, **591**
Herpes simplex virus, Herpetic bronchitis with a broncho-oesophageal fistula, **906**
HFA134a, Salmeterol inhaler using a non-chlorinated propellant, HFA134a: systemic pharmacodynamic activity in healthy volunteers, **679**
High altitude, High altitude pulmonary oedema: still a place for controversy? *editorial*, **923**
High altitude pulmonary oedema, Doppler assessment of hypoxic pulmonary vasoconstriction and susceptibility to high altitude pulmonary oedema, **22**

Histamine
Characteristics of wheeze during histamine-induced airways obstruction in children with asthma, **143**
Effect of an inhaled neutral endopeptidase inhibitor, phosphoramidon, on baseline airway calibre and bronchial responsiveness to bradykinin in asthma, **505**
Histamine-induced bronchoconstriction, Analysis of tidal expiratory flow pattern in the assessment of histamine-induced bronchoconstriction, **346**
Histamine reactivity, Bronchodilator responsiveness to salbutamol and histamine reactivity after continuous treatment with twice daily salmeterol, **476P**
Histoplasmosis
Bronchoscopic findings in a case of bronchopulmonary histoplasmosis, **314**
Sclerosing mediastinitis: a report on 18 cases, **280**
HIV
Changes to alveolar macrophage phenotype in HIV infected individuals with normal CD4 counts and no respiratory disease, **777**
HIV related bronchiectasis: *letter*, **1227**
Interstitial pneumonitis in patients infected with the human immunodeficiency virus, **1141**
Mycobacterial infection in HIV seropositive and seronegative populations, 1987–93, **1147**
New developments in the pulmonary diseases affecting HIV infected individuals, **294**: *letter*, **1227**
Pulmonary complications of HIV disease: 10 year retrospective evaluation of yields from bronchoalveolar lavage, 1983–93, **1240**
Recovery of *Pseudomonas aeruginosa* in respiratory specimens from HIV positive patients being evaluated for *Pneumocystis carinii* pneumonia, **548**
Role of the human immunodeficiency virus within the lung, **567**
Scottish national survey of tuberculosis notifications in 1993 with special reference to the prevalence of HIV seropositivity, **442P**
HIV-1, BAL fluid analysis and HIV-1 infection: *letter*, **701**
HIV-1 proviral DNA
Quantity of HIV-1 proviral DNA in alveolar cells may be contributing to abnormalities of lung physiology in AIDS patients, **434P**
Relationship between HIV-1 proviral DNA copy number in alveolar macrophages and clinical disease in the lung of AIDS patients, **433P**
HLA genetics, HLA genetics and allergic disease: *editorial*, **815**
HLA-DPB, Lack of association between HLA-DPB and sarcoidosis, **457P**
HLA-DR, Changes to alveolar macrophage phenotype in HIV infected individuals with normal CD4 counts and no respiratory disease, **777**
Hodgkin's disease, Management of residual thymic cysts in patients treated for mediastinal Hodgkin's disease, **1118**: commentary, **1121**
Home environment, Home environment and asthma in Kenyan schoolchildren, **74**
Home nebulisers, Home nebulisers: can optimal treatment be predicted by responses to St George's Respiratory Questionnaire?, **456P**
Home rehabilitation, Long term benefits of rehabilitation at home on quality of life and exercise tolerance in patients with chronic obstructive pulmonary disease, **824**
Hospital admission
Aetiology of community-acquired pneumonia: a prospective study among adults requiring admission to hospital, **543**
Audit of an admission data sheet for patients with acute asthma, **462P**
Audit of emergency self-admission for asthma, **463P**
Health effects of an air pollution episode in London, December 1991, **1188**
Hospital admission rates for asthma and respiratory disease in the West Midlands: their relationship to air pollution levels, **948**
Peak flow criteria for hospital admission or discharge in acute asthma, **450P**
Short term fluctuations in air pollution and hospital admissions of the elderly for respiratory disease, **531**
Hospital buildings, Aeromycology of hospital buildings: non-construction related aspergillosis and detection of contaminated aerosols, **431P**
Hospital clinics, New asthma referrals to hospital clinics, **463P**

Hospital workers, Occupational asthma due to glutaraldehyde and formaldehyde in endoscopy and *x* ray departments, **156**
House dust mite, Nitric oxide metabolites in nasal lavage fluid of patients with house dust mite allergy, **275**
House dust mite allergen
Airborne house dust mite allergen, **462P**
Levels of exposure to mite allergen in hospital wards, **462P**
Hydatid disease, Surgical management of pulmonary hydatid cysts in children, **396**
4-Hydroxy-2-nonenal levels
4-Hydroxy-2-nonenal levels in the plasma of patients with ARDS, **458P**
Plasma 4-hydroxy-2-nonenal levels during cardiopulmonary bypass and their relationship to the iron loading of transferrin, **458P**
5-Hydroxytryptamine, Responses to 5HT and sumatriptan in control and pulmonary hypertensive rats, **453P**
Hypercapnia, Effects of fenoterol on ventilatory responses to hypoxia and hypercapnia in normal subjects, **139**
Hypercapnic obstructive airways disease, Use of the Hayek oscillator in stable hypercapnic obstructive airways disease, **436P**
Hyperinflation, Magnetic stimulation of the diaphragm in patients with chronic hyperinflation, **440P**
Hyperoxia, Lung albumin distribution and content in normobaric and hyperbaric hyperoxia in the rat, **458P**
Hypertension
Alterations in CT parenchymal density gradients in lone pulmonary hypertension complicating systemic sclerosis, **454P**
Decreased endogenous nitric oxide in the exhaled air of systemic sclerosis patients with pulmonary hypertension, **452P**
Endothelin receptors in rat pulmonary arteries and arterioles: effect of pulmonary hypertension, **452P**
Prediction of pulmonary hypertension in patients with systemic sclerosis and fibrosing alveolitis, **454P**
Hypopnoea
How to reach a diagnosis in patients who may have the sleep apnoea/hypopnoea syndrome, **883**
Respiratory muscle activity during rapid eye movement (REM) sleep in patients with chronic obstructive pulmonary disease, **376**
Hypothalamic-pituitary-adrenal axis
Measuring the systemic effects of inhaled beclomethasone: timed morning urine collections compared with 24 hour specimens, **1280**
Suppressive effects of therapeutic doses of fluticasone propionate on the HPA axis in healthy volunteers, **444P**
Hypoxaemia
Abnormal myocardial repolarisation in response to hypoxaemia and fenoterol, **1062**
Acute neurohormonal responses to hypoxaemia in humans, **475P**
Hypoxaemia and release of endothelin-1, **1308**
Increased QT dispersion: a novel marker of abnormal myocardial repolarisation during acute hypoxaemia, **468P**
Hypoxia
Effect of acute changes in oxygen tension on responses to methacholine in bronchi from chronically hypoxic rats, **475P**
Effect of hypoxia and beta$_2$ agonists on the activity of the renin-angiotensin system, **475P**
Effects of fenoterol on ventilatory responses to hypoxia and hypercapnia in normal subjects, **139**
Energy state, intracellular pH and tension responses in pulmonary artery rings during hypoxia and absence of substrate, **452P**
Role of hypoxia on increased blood pressure in patients with obstructive sleep apnoea, **28**
Vasodilator efficacy of anitrosothiol SNAP and SNP in normal and chronic hypoxic rat lung, **453P**
Hypoxic constrictor response, Hypoxic constrictor response in intrapulmonary artery rings from chronic hypoxic rats, **452P**
Hypoxic pulmonary vasoconstriction, Doppler assessment of hypoxic pulmonary vasoconstriction and susceptibility to high altitude pulmonary oedema, **22**
Hypoxic pulmonary vasoconstriction/dilatation, Hypoxic pulmonary vasoconstriction/dilatation is modified by different preconditions, **452P**

Idiopathic pulmonary fibrosis
Enhanced migration of fibroblasts derived from lungs with fibrotic lesions, **984**
Oxidants/antioxidants in idiopathic pulmonary fibrosis, **S53**
Relationship between cells obtained by bronchoalveolar lavage and survival in idiopathic pulmonary fibrosis, **1087**
Immunocompromised patients
Commentary: severe varicella/zoster and adenovirus infections in immunocompromised patients, **1222**
Follow up of an immunocompromised contact group of a case of open pulmonary tuberculosis on a renal unit, **863**
Immunocytochemical markers, Reliability of commercially available immunocytochemical markers for identification of neuroendocrine differentiation in bronchoscopic biopsies of bronchial carcinoma, **116**
Immunoglobulin E, Association of non-wheezing lower respiratory tract illnesses in early life with persistently diminished serum IgE levels, **1067**
Immunosuppression, Fatal varicella zoster infection in a severe steroid dependent asthmatic patient receiving methotrexate, **1221**
Impulse oscillation model, Bronchodilator responsiveness of impulse oscillation model parameters in healthy and asthmatic subjects, **466P**
Industrial injury benefit, Coal miners aged over 70 seeking industrial injury benefit for bronchitis and emphysema, **441P**
Infants, Characteristics of infants ventilated with fast rates who receive muscle relaxants, **447P**
Infarction, Incidence of pulmonary thromboembolism, infarction and haemorrhage in disseminated intravascular coagulation: a necroscopic analysis, **160**
Infections, Upper respiratory tract infections and exercise: *editorial*, **1229**
Inflammatory predictors, Inflammatory predictors for the development of the adult respiratory distress syndrome: *editorial*, **1023**
Inflammatory response, Neutrophil sequestration in rat lungs, **661**
Inhaled beclomethasone, Measuring the systemic effects of inhaled beclomethasone: timed morning urine collections compared with 24 hour specimens, **1280**
Inhaled budesonide, Long term clinical comparison of single versus twice daily administration of inhaled budesonide in moderate asthma, **1270**
Inhaled drug delivery, New perspectives on inhaled drug delivery and systemic bioactivity: *editorial*, **105**: correction, **592**
Inhaled morphine, Lack of effect of inhaled morphine on exercise-induced breathlessness in chronic obstructive pulmonary disease, **629**
Inhaled steroids
Inhaled corticosteroids, asthma, and longer term bone metabolism: collagen crosslinks, osteocalcin, and densitometry after one year, **444P**
Markers of bone metabolism in asthmatic children receiving inhaled corticosteroids, **444P**
Patterns of prescribing of inhaled steroids over a seven year period in a general practice and its implications, **443P**
Inhaler, Evaluation of the effectiveness of four different inhalers in patients with chronic obstructive pulmonary disease, **1183**
Intelligent CPAP, Accuracy of an intelligent CPAP machine with in-built diagnostic abilities in detecting apnoeas: a comparison with polysomnography, **1199**
Intensive care unit, A progressive care programme for patients failing to wean on an ICU, **435P**
Intercellular adhesion molecule 1, ICAM-1 expression on alveolar macrophages is enhanced by relevant allergen challenge in patients with atopic asthma, **439P**
Intercostal tube drainage, Tetracycline pleurodesis in malignant pleural effusion: a comparison of needle aspiration with intercostal tube drainage, **437P**
Interferon gamma, Association of non-wheezing lower respiratory tract illnesses in early life with persistently diminished serum IgE levels, **1067**
Interleukin 1beta, Induction of macrophage inflammatory protein 2 gene expression by interleukin 1beta in rat lung, **1136**
Interleukin 8
Effects of interleukin 8 on neutrophil function and the interaction with FMLP, **479P**
Interleukin 8 may be involved in the recruitment of neutrophils into the respiratory tract of smokers and patients with chronic obstructive pulmonary disease, **479P**
Role of elevated plasma soluble ICAM-1 and bronchial lavage fluid IL-8 levels as markers of chronic lung disease in premature infants, **1073**

Synthesis of IL-8, GM-CSF and TNFalpha by cultured nasal epithelial cells from atopic rhinitic, atopic non-rhinitic and non-atopic non-rhinitic subjects and the effect of exposure to nitrogen dioxide, **448P**

Interleukin 10
Raised interleukin 10 levels in bronchoalveolar lavage samples in the adult respiratory distress syndrome, **457P**
Tumour necrosis factor alpha regulation by interleukin 10 in alveolar macrophages from patients with sarcoidosis or fibrosing alveolitis, **457P**

Interleukins
Analysis of lymphocytic proliferation and interleukin production in response to CMV antigen following lung transplantation, **471P**
Expression of IL-1β and IL-1 receptor antagonist (IL-1ra) in asthmatic bronchial epithelium: effect of steroids, **448P**

Interstitial lung disease, Relationship between cells obtained by bronchoalveolar lavage and survival in idiopathic pulmonary fibrosis, **1087**

Interstitial pneumonitis, Interstitial pneumonitis in patients infected with the human immunodeficiency virus, **1141**

Intrabreath method, Comparison of the single breath with the intrabreath method for the measurement of the carbon monoxide transfer factor in subjects with and without airways obstruction, **902**

Intrapulmonary artery rings, Hypoxic constrictor response in intrapulmonary artery rings from chronic hypoxic rats, **452P**

Ipratropium bromide
Comparative dose-response study of three anticholinergic agents and fenoterol using a metered dose inhaler in patients with chronic obstructive pulmonary disease, **62**
Comparative efficacy of ipratropium bromide via Turbohaler and MDI in patients with reversible airflow obstruction, **469P**
Comparison of nebulisation therapy combining ipratropium bromide (0·5 mg) plus salbutamol sulphate (3·0 mg) with salbutamol sulphate (3·0 mg) alone in acute asthma, **450P**
Comparison of nebulised salbutamol and ipratropium bromide with salbutamol alone in the treatment of chronic obstructive pulmonary disease, **834**
Ipratropium bromide given by Turbohaler is more potent than when given by pressurised metered dose inhaler, **469P**

Ischaemia reperfusion injury, Attenuation of ischaemia reperfusion injury by human thioredoxin, **387**

Isoniazid
Hepatotoxicity caused by the combined action of isoniazid and rifampicin, **213**
Toxicity of isoniazid and rifampicin combination: *letter*, **814**

Kaposi's sarcoma
Intrathoracic Kaposi's sarcoma in patients with AIDS, **407**
Pulmonary haemorrhage following renal transplantation, **98**

Kenya, Home environment and asthma in Kenyan schoolchildren, **74**

Lactic dehydrogenase, Pleural lactic dehydrogenase and isoenzymes as addditional diagnostic markers in pleural effusion, **474P**

Laser Dopper flowmetry, Continuous nasal positive airway pressure with a mouth leak: effect on nasal mucosal blood flux and nasal geometry, **1179**

Late diagnosis, Genetic and clinical features of patients with cystic fibrosis diagnosed after the age of 16 years, **1301**

Leiomyoma
Endobronchial leiomyoma, **101**
Pulmonary benign metastasising leiomyoma: response to treatment with goserelin, **1225**

Leukotriene B_4, Reduction in leukotriene B_4 generation by bronchoalveolar lavage cells in asthma, **67**

Levator palatini, Comparison of reflex activity of levator palatini and palatopharyngeus in patients with sleep apnoea, **445P**

Limb girdle dystrophy, Control of breathing in patients with limb girdle dystrophy: a controlled study, **962**

Lipopolysaccharide
Cyclic GMP levels are raised in endothelium-denuded rat pulmonary artery after LPS treatment, **453P**
Downregulation of the constitutive nitric oxide synthase gene expression in rats treated with lipopolysaccharide in vivo, **451P**

Liposomal amphotericin B, Use of nebulised liposomal amphotericin B in the treatment of *Aspergillus fumigatus* empyema, **1321**: commentary, **1323**

Liposome-mediated *CFTR* gene, Liposome-mediated *CFTR* gene transfer to the nasal epithelium of patients with cystic fibrosis, **435P**

Lipoxin A4, Lipoxin A4: a novel anti-inflammatory molecule?: *editorial*, **111**

Liquid oxygen
Factors predicting subjective benefit of patients prescribed liquid oxygen, **456P**
Subjective reactions of patients and their carers to liquid oxygen, **456P**

Lisinopril, Lisinopril inhibits elevation of plasma angiotensin II by nebulised $beta_2$ agonists, **475P**

Liver failure, Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **399**

Liverpool, Tuberculosis screening and tuberculin testing in two social clubs in the city of Liverpool, **460P**

Lobar emphysema, Adult congenital lobar emphysema in pregnancy, **909**

London, Tuberculosis among the homeless in London, **459P**

Low yield, The tar reduction study: randomised trial of the effect of cigarette tar yield reduction on compensatory smoking, **1038**

Lung abscess
Chronic lung abscess due to *Pasteurella multocida*, **1017**
Streptococcus milleri pulmonary disease: a review and clinical description of 25 patients, **1093**

Lung cancer (carcinoma)
Age as a factor in lung cancer surgery results from one region over a five year period, **436P**
Breaking the bad news of lung cancer: a study of patients' views and support needs, **473P**
Bronchogenic carcinoma: incidence of metastases to normal sized lymph nodes, **1267**
Combined pulmonary and thoracic wall resection for stage III lung cancer, **782**
Completion pneumonectomy for lung cancer: indications and outcome, **473P**
Differential pleural effusion kinetics in mesothelioma and carcinoma: a study using a dual isotope technique, **474P**
Does blood transfusion affect long term survival following lung cancer resection? **436P**
Lung cancer in ex-smokers, **473P**
Patient survival and bronchial resection line status in primary lung carcinoma, **437P**
Percutaneous lung biopsy with a fine bore cutting needle (Vacu-Cut): improved results using drill technique, **560**
Risk of lung cancer following radiotherapy for breast cancer in Yorkshire, **473P**
Use of genetic markers to identify precancerous bronchial lesions in lung carcinogenesis, **474P**
Value of cervical mediastinoscopy combined with anterior mediastinotomy in bronchogenic carcinoma of the left upper lobe, **473P**

Lung disease, Lung disease induced by drug addiction: *editorial*, **1125**

Lung function
Accelerated lung function decline in textile workers: cotton dust, cigarette smoking or both?, **462P**
Changes in lung function in asthmatic children undergoing general anaesthesia, **464P**
Comparison of respiratory function after single lung transplantation for fibrosing alveolitis and emphysema, **467P**
Effect of spinal surgery on lung function in Duchenne muscular dystrophy, **1173**
Ethnic origin and lung function of infants born prematurely, **773**
Exposure to cobalt chromium dust and lung disorders in dental technicians, **769**
Influence of a variety of personal characteristics upon across shift and across week changes in lung function in textile workers, **461P**

Lung inflammation, Polymorphonuclear leucocyte traffic in lung inflammation: *editorial*, **819**

Lung injury
Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **399**
Inhaled vasodilator therapy in acute lung injury: first, do NO harm?: *editorial*, **821**
Lung injury in patients following thoracotomy, **990**: correction, **1124**
Nebulised prostacyclin used as a selective pulmonary vasodilator in acute lung injury, **454P**

Lung sounds, Potential for lung sound monitoring during bronchial provocation testing, **955**
Lung transplantation
Allergic bronchopulmonary aspergillosis after lung transplantation?, **462P**
Analysis of lymphocytic proliferation and interleukin production in response to CMV antigen following lung transplantation, **471P**
Bilateral sequential lung transplantation for end stage septic lung disease, **565**
Comparison of respiratory function after single lung transplantation for fibrosing alveolitis and emphysema, **467P**
Detection of human cytomegalovirus antigenaemia: a rapid diagnostic technique for predicting cytomegalovirus infection/pneumonitis in lung and heart transplant recipients, **9**
Obliterative bronchiolitis caused by multiple tumourlets and microcarcinoids successfully treated by single lung transplantation, **207**
Single lung transplantation for end stage emphysema, **562**
Successful stenting of a pulmonary arterial stenosis after a single lung transplant, **1011**: commentary, **1016**
Lung tumour, Multiple brushings with immediate Riu's stain via flexible fibreoptic bronchoscopy without fluoroscopic guidance in the diagnosis of peripheral pulmonary tumours, **18**
Lung volume
Critical evaluation of computerised *x* ray planimetry for the measurement of lung volumes, **383**
Cryptogenic fibrosing alveolitis with normal lung volumes, **433P**
In vivo assessment of diaphragm contraction by ultrasound in normal subjects, **1157**
Influence of maturity at birth on lung volume of preschool children, **447P**
Software compensation for lung volume in assessment of inspiratory muscle strength and endurance, **230**
Lymph node, Bronchogenic carcinoma: incidence of metastases to normal sized lymph nodes, **1267**
Lymphocytes, Effect of platelet activating factor on the migration of human lymphocytes, **265**
Lymphocytic proliferation, Analysis of lymphocytic proliferation and interleukin production in response to CMV antigen following lung transplantation, **471P**
Lymphoma
Lethal tracheal dissolution during treatment for thyroid lymphoma, **1120**: commentary, **1121**
Management of residual thymic cysts in patients treated for mediastinal Hodgkin's disease, **1118**: commentary, **1121**
Lymphoproliferative disease, Necrotic, ulcerative bronchitis, the presenting feature of lymphoproliferative disease following heart-lung transplantation, **205**

Macrophage inflammatory protein 2, Induction of macrophage inflammatory protein 2 gene expression by interleukin 1β in rat lung, **1136**
Macrophages, Changes to alveolar macrophage phenotype in HIV infected individuals with normal CD4 counts and no respiratory disease, **777**
Magnetic resonance imaging
Demonstration of supernumerary tracheal bronchus by computed tomographic scanning and magnetic resonance imaging, **426**
Magnetic resonance imaging in the staging of bronchial carcinoma, **436P**
Magnetic stimulation
Magnetic stimulation of the diaphragm in patients with chronic hyperinflation, **440P**
Mouth pressure in response to magnetic stimulation of the phrenic nerves, **620**
Unilateral magnetic stimulation of the phrenic nerve, **1162**
Malignancy, Treatment of malignant obstruction of the superior vena cava with the self-expanding Wallstent, **1151**
Malignant pleural effusion
Corynebacterium parvum for malignant pleural effusions: *letter*, **104**
Malignant pleural effusion: *letter*, **103**
Management, Variability in the hospital management of acute emergencies and implications for future savings, **446P**
Mast cells, Mast cells infiltrate the bronchial epithelium in mild asthma, **438P**
Maternal asthma
Maternal asthma, premature birth and the risk of respiratory morbidity in primary schoolchildren, **448P**
Maternal asthma, premature birth, and the risk of respiratory morbidity in schoolchildren in Merseyside, **525**
Maturity, Influence of maturity at birth on lung volume of preschool children, **447P**
Maximal inspiratory pressure
Maximal inspiratory pressure: does reproducibility indicate full effort?, **40**
Software compensation for lung volume in assessment of inspiratory muscle strength and endurance, **230**
Maximally forced expiration, Time constants during tidal expiration and maximally forced expiration, **468P**
Maximum inspiratory pressure, In vivo assessment of diaphragm contraction by ultrasound in normal subjects, **1157**
Mechanical load, Mechanical loading and control of breathing in patients with severe chronic obstructive pulmonary disease, **127**
Mediastinal mass, Primary amyloidosis presenting as an isolated mediastinal mass: diagnosis by fine needle biopsy, **908**
Mediastinal neoplasms, Fallibility of transthoracic needle biopsy of anterior mediastinal masses, **1114**: commentary, **1121**
Mediastinitis, Empyema and mediastinitis with retropharyngeal abscess: *letter*, **216**
Mesothelioma
Differential pleural effusion kinetics in mesothelioma and carcinoma: a study using a dual isotope technique, **474P**
Malignant mesothelioma: new insights into tumour biology and immunology as a basis for new treatment approaches, **887**
Pleural mesothelioma with non-Hodgkin's lymphoma: *letter*, **915**
TNM staging system for malignant mesothelioma: evaluation in 88 patients with malignant pleural mesothelioma, **437P**
Metabisulphite, Occupational asthma caused by dry metabisulphite, **585**
Metaplasia, Changes in neuroendocrine elements in bronchial mucosa in chronic lung disease in adults, **551**
Metastasising leiomyoma, Pulmonary benign metastasising leiomyoma: response to treatment with goserelin, **1225**
Metastatic disease, Tuberculosis of the sternum presenting as metastatic disease, **1223**
Metered dose inhaler
Aerosol deposition in the human lung following administration from a microprocessor controlled pressurised metered dose inhaler, **639**
Comparative efficacy of ipratropium bromide via Turbohaler and MDI in patients with reversible airflow obstruction, **469P**
Factors affecting total and "respirable" dose delivered by a salbutamol metered dose inhaler, **746**
Generic salbutamol metered dose inhalers: *letter*, **590**
Ipratropium bromide given by Turbohaler is more potent than when given by pressurised metered dose inhaler, **469P**
Salmeterol inhaler using a non-chlorinated propellant, HFA134a: systemic pharmacodynamic activity in healthy volunteers, **679**
Methacholine
Adenosine, methacholine, and exercise challenges in children with asthma or paediatric chronic obstructive pulmonary disease, **511**
Angiotensin II potentiates, in vitro and in vivo, methacholine-induced bronchoconstriction, **475P**
Effect of acute changes in oxygen tension on responses to methacholine in bronchi from chronically hypoxic rats, **475P**
Effects of diurnal variation and prolonged refractoriness on repeated measurements of airways responsiveness to methacholine, **235**
Methacholine induced headache, **319**
Methacholine chloride, Effect of dietary sodium on airways responsiveness and its importance in the epidemiology of asthma: an evaluation in three areas of northern England, **941**
Methotrexate, Fatal varicella zoster infection in a severe steroid dependent asthmatic patient receiving methotrexate, **1221**
Microaspiration, recurrent, Ciliary function tests: can we detect recurrent microaspiration in children with gastro-oesophageal reflux?, **472P**
Microbial inciters, Microbial inciters of acute asthma in urban Nigerian children, **739**
Microprocessor controlled device, Aerosol deposition in the human lung following administration from a microprocessor controlled pressurised metered dose inhaler, **639**
Migration, Enhanced migration of fibroblasts derived from lungs with fibrotic lesions, **984**
Miliary tuberculosis, Experience of miliary tuberculosis in a high incidence area: Blackburn 1978–93, **460P**

Minute ventilation, Expiratory muscle training and sensation of respiratory effort during exercise in normal subjects, **366**
Mixed connective tissue disease, Pulmonary vascular reactivity in severe pulmonary hypertension associated with mixed connective tissue disease, **96**
Morphine, Lack of effect of inhaled morphine on exercise-induced breathlessness in chronic obstructive pulmonary disease, **629**
Mortality, Trends in mortality from tuberculosis in England and Wales: effect of age on deaths from non-respiratory disease, **976**
Motor activity, Wrist actigraphic assessment of sleep in 116 community based subjects suspected of obstructive sleep apnoea, **284**
Mountain sickness, High altitude pulmonary oedema: still a place for controversy?: *editorial*, **923**
Mouth pressure, Mouth pressure in response to magnetic stimulation of the phrenic nerves, **620**
Mucosa
Changes in neuroendocrine elements in bronchial mucosa in chronic lung disease in adults, **551**
Co-amoxiclav levels in bronchial mucosa: *letter*, **429**
Multidrug-resistant tuberculosis, Escalating threat from tuberculosis: the third epidemic, **S37**
Muscle relaxants, Characteristics of infants ventilated with fast rates who receive muscle relaxants, **447P**
Muscle strength
Maximal inspiratory pressure: does reproducibility indicate full effort?, **40**
Measurement of respiratory muscle strength: *editorial*, **1131**
Software compensation for lung volume in assessment of inspiratory muscle strength and endurance, **230**
Myasthenia gravis, Comparative effects of plasma exchange and pyridostigmine on respiratory muscle strength and breathing pattern in patients with myasthenia gravis, **1080**
Mycobacteria, "Non-tuberculous mycobacteria": *adventitia*, **634**
Mycobacterial infections, Characteristics and outcome of patients with pulmonary non-tuberculous mycobacterial infections, **460P**
Mycobacterium malmoense
Non-tuberculous pulmonary infections in Scotland: a cluster in Lothian?, **188**
Pulmonary *Mycobacterium malmoense* and *Aspergillus* infection: *letter*, **216**
Mycobacterium resistance network, UK mycobacterium resistance network, **442P**
Mycobacterium tuberculosis
Chylothorax due to *Mycobacterium tuberculosis*, **1019**
Restriction fragment length polymorphism typing of *Mycobacterium tuberculosis*, **1211**
Myocardial repolarisation, Increased QT dispersion: a novel marker of abnormal myocardial repolarisation during acute hypoxaemia, **468P**

N-acetyl cysteine, Effect of *N*-acetyl cysteine on thiol levels: *letter*, **215**
Nasal cannulae, Compliance at night with low flow oxygen therapy: a comparison of nasal cannulae and Venturi face masks, **405**
Nasal continuous positive airway pressure
Continuous nasal positive airway pressure with a mouth leak: effect on nasal mucosal blood flux and nasal geometry, **1179**
Nasal continuous positive airway pressure treatment for obstructive sleep apnoea, **1106**
Nasal CPAP as a treatment for obstructive sleep apnoea: objective versus subjective compliance, **477P**
Use of the Epworth Sleepiness Scale to monitor response to treatment with nasal continuous positive airways pressure in patients with obstructive sleep apnoea, **477P**
Nasal intermittent positive pressure ventilation
Long term nasal ventilation: *editorial*, **595**
Outcome of domiciliary nasal intermittent positive pressure ventilation in restrictive and obstructive disorders, **604**
Outcome of nasal intermittent positive pressure ventilation in acute respiratory failure, **435P**
Supplementary oxygen administration with nasal intermittent positive pressure ventilation, **435P**
Nasal mucosa, Comparative study of the effects of different glucocorticosteroids on eosinophil survival primed by cultured epithelial cell supernatants obtained from nasal mucosa and nasal polyps, **270**
Nasal mucosal blood flux, Continuous nasal positive airway pressure with a mouth leak: effect on nasal mucosal blood flux and nasal geometry, **1179**
Natriuretic peptides, Pulmonary vasorelaxant activity of atrial natriuretic peptide and brain natriuretic peptide in humans, **183**
Nebulisation therapy, Comparison of nebulisation therapy combining ipratropium bromide (0·5 mg) plus salbutamol sulphate (3·0 mg) with salbutamol sulphate (3·0 mg) alone in acute asthma, **450P**
Nebuliser
Differences in aerosol output and airways responsiveness between the DeVilbiss 40 and 45 hand held nebulisers, **635**
District nebuliser compressor service: reliability and costs, **82**
Effect of a spacer on pulmonary aerosol deposition from a jet nebuliser during mechanical ventilation, **50**
Home nebulisers: can optimal treatment be predicted by responses to St George's Respiratory Questionnaire?, **456P**
Use of nebulised liposomal amphotericin B in the treatment of *Aspergillus fumigatus* empyema, **1321**: commentary, **1323**
Needle aspiration, Tetracycline pleurodesis in malignant pleural effusion: a comparison of needle aspiration with intercostal tube drainage, **437P**
Needle biopsy
Fallibility of transthoracic needle biopsy of anterior mediastinal masses, **1114**: commentary, **1121**
Percutaneous lung biopsy with a fine bore cutting needle (Vacu-Cut): improved results using drill technique, **560**
Negative airways pressure, Genioglossus muscle response to negative airways pressure in awake humans: lack of effect of stimulus timing within the respiratory cycle, **444P**
Neoadjuvant chemotherapy, Neoadjuvant chemotherapy in stage IIIa non-small cell lung cancer, **S25**
Neonatal screening
Long term prognosis of patients with cystic fibrosis in relation to early detection by neonatal screening and treatment in a cystic fibrosis centre, **712**
Neonatal screening for cystic fibrosis: *editorial*, **705**
Neoplastic angioendotheliosis, Pulmonary vascular involvement in neoplastic angioendotheliosis, **94**
Nephrolithiasis, Nephrolithiasis as a presenting feature of chronic sarcoidosis, **555**
Neuroendocrine cells, Changes in neuroendocrine elements in bronchial mucosa in chronic lung disease in adults, **551**
Neuroendocrine differentiation
Neuroendocrine differentiation in lung carcinoma: *editorial*, **113**
Reliability of commercially available immunocytochemical markers for identification of neuroendocrine differentiation in bronchoscopic biopsies of bronchial carcinoma, **116**
Neurogenic inflammation
Effects of topical capsaicin in seasonal allergic rhinitis, **225**
Neurogenic inflammation in human airways: is it important?, *editorial*, **217**
Neurokinin A, Neurogenic inflammation in human airways: is it important?: *editorial*, **217**
Neutrophils
Beta$_2$-integrin expression on circulating blood neutrophils from patients with cystic fibrosis, **434P**
Bronchial inflammation in chronic bronchitis assessed by measurement of cell products in bronchial lavage fluid, **360**
Contribution of neutrophils, tumour necrosis factor and glutathione to cigarette smoke-induced increased airspace permeability, **479P**
Effect of cigarette smoke on the mRNA and protein expression of carcinoembryonic antigen, a possible chemoattractant for neutrophils in human bronchioloalveolar tissues, **651**
Effects of interleukin 8 on neutrophil function and the interaction with FMLP, **479P**
Human bronchial epithelial cell mediators influence eosinophil and neutrophil adhesion of human endothelial cells in vitro, **438P**
Induction of macrophage inflammatory protein 2 gene expression by interleukin 1β in rat lung, **1136**
Interleukin 8 may be involved in the recruitment of neutrophils into the respiratory tract of smokers and patients with chronic obstructive pulmonary disease, **479P**
Late as well as early neutrophil influx is CD18 dependent in *E. coli* pneumonia, **471P**
Mediators from human bronchial epithelial cells can influence eosinophil and neutrophil chemotaxis in vitro, **449P**
Neutrophil sequestration in rat lungs, **661**

The role of CD10 in the modulation of neutrophil function, **478P**

New Zealand, Major reduction in asthma morbidity and continued reduction in asthma mortality in New Zealand: what lessons have been learned?, **303**: *letters*, **1020**

NHS, Audit of discharge rates in respiratory outpatient clinics: NHS versus the private sector, **447P**

Nigerian children, Microbial inciters of acute asthma in urban Nigerian children, **739**

Night time respiratory recording variables, Adequacy of prescribing nasal continuous positive airway pressure therapy for the sleep apnoea/hypopnoea syndrome on the basis of night time respiratory recording variables, **969**

Nitric oxide
- Allergen-induced late asthmatic reactions are associated with increased nitric oxide concentration in exhaled air, **438P**
- Ca^{2+}-independent nitric oxide synthase activity in human lung after cardiopulmonary bypass, **403**
- Decreased endogenous nitric oxide in the exhaled air of systemic sclerosis patients with pulmonary hypertension, **452P**
- Increased nitric oxide in exhaled air of normal subjects with upper respiratory tract infection, **451P**
- Inhaled vasodilator therapy in acute lung injury: first, do NO harm?: *editorial*, **821**
- L-Arginine increases exhaled nitric oxide in normal subjects, **451P**
- Nitration of tyrosine by gas phase cigarette smoke: a mechanism of biomolecular damage by exposure to excess nitric oxide?, **480P**
- Nitric oxide metabolites in nasal lavage fluid of patients with house dust mite allergy, **275**
- Nitric oxide production by human bronchoalveolar lavage cells in culture, **451P**
- NO news is good news: *editorial*, **323**
- Pulmonary vascular reactivity in severe pulmonary hypertension associated with mixed connective tissue disease, **96**

Nitric oxide synthase, Downregulation of the constitutive nitric oxide synthase gene expression in rats treated with lipopolysaccharide in vivo, **451P**

Nitrogen dioxide
- Health effects of an air pollution episode in London, December 1991, **1188**
- Synthesis of IL-8, GM-CSF and TNFalpha by cultured nasal epithelial cells from atopic rhinitic, atopic non-rhinitic and non-atopic non-rhinitic subjects and the effect of exposure to nitrogen dioxide, **448P**

s-Nitrosothiols, Vasodilator efficacy of anitrosothiol SNAP and SNP in normal and chronic hypoxic rat lung, **453P**

Nocturnal assisted ventilation, Comparison of "elective" and "emergency" initiation of nocturnal assisted ventilation: importance of avoiding endotracheal intubation, **435P**

Nocturnal hypoxaemia, Compliance at night with low flow oxygen therapy: a comparison of nasal cannulae and Venturi face masks, **405**

Nocturnal oxygen desaturation, Nocturnal oxygen desaturation and spirometric parameters in adults with cystic fibrosis, **539**

Nocturnal saturation, Nocturnal saturation and respiratory muscle function in patients with chronic obstructive pulmonary disease, **610**

Non-Hodgkin's lymphoma, Pleural mesothelioma with non-Hodgkin's lymphoma: *letter*, **915**

Non-invasive mechanical ventilation, Non-invasive mechanical ventilation in acute respiratory failure due to chronic obstructive pulmonary disease: correlates for success, **755**: *letter*, **1327**

Non-small cell lung cancer, Neoadjuvant chemotherapy in stage IIIa non-small cell lung cancer, **S25**

Non-thrombotic pulmonary embolism, Massive haemoptysis complicating prosthetic patch pulmonary embolism after atrial septal defect repair, **911**

Non-tuberculous mycobacteria
- "Non-tuberculous mycobacteria": *adventitia*, **634**
- Non-tuberculous pulmonary infections in Scotland: a cluster in Lothian?, **188**

Nosocomial pneumonia, Nosocomial pneumonia during mechanical ventilation: problems with diagnostic criteria: *editorial*, **1128**

Notices, **104**, **320**, **592**, **704**, **814**, **918**, **1022**, **1124**, **1327**

Nurse-led discharge planning, Impact of structured nurse-led discharge planning on outcome in children hospitalised with acute asthma, **464P**

Obliterative bronchiolitis, Obliterative bronchiolitis caused by multiple tumourlets and microcarcinoids successfully treated by single lung transplantation, **207**

Obstructive airway change, Relationship of acute obstructive airway change to chronic (fixed) obstruction, **S16**

Obstructive sleep apnoea
- Adequacy of prescribing nasal continuous positive airway pressure therapy for the sleep apnoea/hypopnoea syndrome on the basis of night time respiratory recording variables, **969**
- Comparative study of cost of polysomnography and oximetry in the sleep apnoea syndrome, **478P**
- Comparison of laboratory polysomnography with home use of the Edentrace II recorder in the diagnosis of sleep apnoea, **478P**
- Consequences of sleep disordered breathing, **998**
- MRI cerebral white matter changes in obstructive sleep apnoea, **477P**
- Nasal continuous positive airway pressure treatment for obstructive sleep apnoea, **1106**
- Nasal CPAP as a treatment for obstructive sleep apnoea: objective versus subjective compliance, **477P**
- Obstructive sleep apnoea: definitions, epidemiology, and natural history, **683**
- Obstructive sleep apnoea with Arnold-Chiari malformation, **690**: *commentary*, **696**
- Pathophysiology of obstructive sleep apnoea, **797**
- Role of hypoxia on increased blood pressure in patients with obstructive sleep apnoea, **28**
- Use of the Epworth Sleepiness Scale to monitor response to treatment with nasal continuous positive airways pressure in patients with obstructive sleep apnoea, **477P**
- Use of pulse transit time as a measure of inspiratory effort in obstructive sleep apnoea, **478P**
- Wrist actigraphic assessment of sleep in 116 community based subjects suspected of obstructive sleep apnoea, **284**

Obstructive sleep apnoea syndrome, Obstructive sleep apnoea syndrome in infants and children: established facts and unsettled issues, **1204**

Occupation, Employment status and the perceived association of occupation with respiratory symptoms in young adults with and without asthma, **431P**

Occupational asthma
- Occupational asthma caused by dry metabisulphite, **585**
- Occupational asthma due to gas metal arc welding on mild steel, **587**
- Occupational asthma due to glutaraldehyde and formaldehyde in endoscopy and *x* ray departments, **156**
- Occupational asthma due to a widely used soft solder flux not containing colophony, **461P**
- Occupational asthma in East London, **432P**
- Outcomes in occupational asthma, **441P**
- Work-related symptoms and specific sensitisation in a cohort of workers exposed to acid anhydrides, **441P**
- Work-related symptoms and specific sensitisation in two occupational cohorts, **441P**

Occupational lung disease, Commentary: cause and effect in occupational lung disease, **589**

Oronasal thermistry, Wrist actigraphic assessment of sleep in 116 community based subjects suspected of obstructive sleep apnoea, **284**

Oscillometry, Bronchodilator responsiveness of impulse oscillation model parameters in healthy and asthmatic subjects, **466P**

Outpatient, District nebuliser compressor service: reliability and costs, **82**

Outpatient clinics, Follow up of asthma patients in hospital outpatient clinics, **450P**

Overinflation, Evaluation of an index of overinflation derived from analysis of tidal breathing, **468P**

Oxidants, Oxidants/antioxidants in idiopathic pulmonary fibrosis, **S53**

Oxidative phosphorylation, Efficiency of oxidative work performance of skeletal muscle in patients with cystic fibrosis, **980**

Oximetry
- Arterial blood gas analysis or oxygen saturation in the assessment of acute asthma?, **186**
- Comparative study of cost of polysomnography and oximetry in the sleep apnoea syndrome, **478P**
- Nocturnal oximetry and transcutaneous CO_2 in patients with cystic fibrosis, **478P**

Oxitropium bromide, Comparative dose-response study of three anticholinergic agents and fenoterol using a metered dose inhaler in patients with chronic obstructive pulmonary disease, **62**
Oxygen
Factors predicting subjective benefit of patients prescribed liquid oxygen, **456P**
Review of the prescription of cylinder oxygen in Scotland, **455P**
Review of the prescription of domiciliary long term oxygen therapy in Scotland, **1103**: correction, **1327**
Subjective reactions of patients and their carers to liquid oxygen, **456P**
Supplementary oxygen administration with nasal intermittent positive pressure ventilation, **435P**
Oxygen concentrators
Evaluation of the use of concentrators for domiciliary oxygen supply for less than eight hours per day, **456P**
Use of oxygen concentrators along with nebulisers in the Birmingham and Solihull areas: who are using them and why?, **456P**
Oxygen-free radicals, In vitro release of arachidonic acid metabolites, glutathione peroxidase, and oxygen-free radicals from platelets of asthmatic patients with and without aspirin intolerance, **490**
Oxygen tension, Effect of acute changes in oxygen tension on responses to methacholine in bronchi from chronically hypoxic rats, **475P**
Oxygen therapy
Compliance at night with low flow oxygen therapy: a comparison of nasal cannulae and Venturi face masks, **405**
Early effect of long term oxygen therapy on quality of life in patients with COPD, **455P**
Ozone-induced damage, Effectiveness of low molecular weight thiols in protecting epithelial lining fluids from ozone-induced damage, **480P**
Ozone-induced export, Ozone-induced export of glutathione and epithelial permeability in vitro is associated with cytoskeletal disruption, **480P**

P2 gene, RFLP analysis of the P2 gene of *Haemophilus influenzae* isolates recovered from patients with bronchiectasis, **470P**
Paediatric to adult physician, Cystic fibrosis: transition from paediatric to adult physician's care: *editorial*, **1031**
Pakistan, Attitudes of Asian medical students towards smoking, **996**
Palatal muscles, Reflex activity of palatal muscles in patients with sleep apnoea and normal non-snoring subjects, **445P**
Palatopharyngeus, Comparison of reflex activity of levator palatini and palatopharyngeus in patients with sleep apnoea, **445P**
Paracetamol, Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **399**
Parathyroid cyst, Parathyroid cyst of the thymus, **913**
Partial agonist/antagonist, Expression of the beta$_2$ adrenoceptor partial agonist/antagonist activity of salbutamol in states of low and high adrenergic tone, **134**: *letter*, **1227**
Particle size, Differences in aerodynamic particle size distributions of innovator and generic beclomethasone dipropionate aerosols used with and without a large volume spacer, **846**
Partner, Self assessment of daytime sleepiness: patient versus partner, **994**
Pasteurella multocida, Chronic lung abscess due to *Pasteurella multocida*, **1017**
Peak expiratory flow
Relation between respiratory symptoms, pulmonary function and peak flow variability in adults, **121**
Variability of peak expiratory flow rate in children: short and long term reproducibility, **35**
Peak flow criteria, Peak flow criteria for hospital admission or discharge in acute asthma, **450P**
Pentamidine, Comparison of pentamidine absorption in the isolated perfused rabbit lung when administered by intratracheal instillation and ultrasonic nebuliser, **465P**
Perception
Different perceptions of disease severity and self care between patients with cystic fibrosis, their close companions, and physician, **794**
Perception, personality, and respiratory control in life-threatening asthma, **S2**
Personality, Perception, personality, and respiratory control in life-threatening asthma, **S2**
pH measurements, Simultaneous tracheal and oesophageal pH measurements in asthmatic patients with gastro-oesophageal reflux, **201**
Phlegm, Effect of ambient levels of smoke and sulphur dioxide on the health of a national sample of 23 year old subjects in 1981, **764**
Phonopneumography, Spectral characteristics of chest wall breath sounds in normal subjects, **1292**
Phosphoramidon, Effect of an inhaled neutral endopeptidase inhibitor, phosphoramidon, on baseline airway calibre and bronchial responsiveness to bradykinin in asthma, **505**
Phrenic nerves
Mouth pressure in response to magnetic stimulation of the phrenic nerves, **620**
Unilateral magnetic stimulation of the phrenic nerve, **1162**
Phrenic neuropathy, Phrenic neuropathy in chronic renal failure, **793**
Physiotherapy, Chest physiotherapy in cystic fibrosis: a comparative study of autogenic drainage and the active cycle of breathing techniques with postural drainage, **165**: *letter*, **1123**
Plasma exchange, Comparative effects of plasma exchange and pyridostigmine on respiratory muscle strength and breathing pattern in patients with myasthenia gravis, **1080**
Platelet activating factor, Effect of platelet activating factor on the migration of human lymphocytes, **265**
Plethysmography, Critical evaluation of computerised *x* ray planimetry for the measurement of lung volumes, **383**
Pleural effusion
Corynebacterium parvum for malignant pleural effusions: *letter*, **104**
Differential pleural effusion kinetics in mesothelioma and carcinoma: a study using a dual isotope technique, **474P**
Eight year experience with the pleuroperitoneal shunt for the management of malignant pleural effusions, **437P**
Malignant pleural effusion: *letter*, **103**
Pleural lactic dehydrogenase and isoenzymes as addditional diagnostic markers in pleural effusion, **474P**
Randomised trial of corticosteroids in the treatment of tuberculous pleurisy, **1305**
Tetracycline pleurodesis in malignant pleural effusion: a comparison of needle aspiration with intercostal tube drainage, **437P**
Tuberculous pleurisy and adenosine deaminase: *editorial*, **593**
Use of adenosine deaminase as a diagnostic tool for tuberculous pleurisy, **672**
Value of adenosine deaminase in the diagnosis of tuberculous pleural effusions in young patients in a region of high prevalence of tuberculosis, **600**
Pleurectomy, Pleurectomy for persistent pain in benign asbestos-related pleural disease, **181**
Pleuroperitoneal shunt, Eight year experience with the pleuroperitoneal shunt for the management of malignant pleural effusions,**437P**
Plexogenic pulmonary arteriopathy, Pulmonary endocrine cells in plexogenic pulmonary arteriopathy associated with cirrhosis, **92**
Pneumococcal pneumonia, Successful extracorporeal membrane oxygenation (ECMO) support for fulminant community-acquired pneumococcal pneumonia, **1317**: commentary, **1323**
Pneumoconiosis
Exposure to cobalt chromium dust and lung disorders in dental technicians, **769**
Pneumoconiosis and systemic sclerosis following 10 years of exposure to polyvinyl chloride dust, **583**
***Pneumocystis carinii* pneumonia**
Pneumocystis carinii pneumonia, **191**
Prognostic factors influencing the outcome in *Pneumocystis carinii* pneumonia in patients with AIDS, **668**
Pulmonary complications of HIV disease: 10 year retrospective evaluation of yields from bronchoalveolar lavage, 1983–93, **1240**
Recovery of *Pseudomonas aeruginosa* in respiratory specimens from HIV positive patients being evaluated for *Pneumocystis carinii* pneumonia, **548**
Pneumocytes, An in vitro biological effect of an antibody to an epithelial cell autoantigen in cryptogenic fibrosing alveolitis, Epstein-Barr virus in type II pneumocytes in cryptogenic fibrosing alveolitis, **432P**
Pneumonectomy
Completion pneumonectomy for lung cancer: indications and outcome, **473P**

Initial experience of video assisted thoracoscopic pneumonectomy, **392**

Pneumonia
A case of *Acinetobacter calcoaceticus* pneumonia, **315**
Aetiology of community-acquired pneumonia: a prospective study among adults requiring admission to hospital, **543**
Bronchiolitis obliterans with organising pneumonia: outcome, **S59**
Diagnostic value of blood cytokine concentrations in acute pneumonia, **1253**
Fatal chickenpox pneumonia in an asthmatic patient on oral steroids and methotrexate, **422**
Impact of bronchoalveolar lavage in suspected pneumonia after renal transplantation, **465P**
Late as well as early neutrophil influx is CD18 dependent in *E. coli* pneumonia, **471P**
Nosocomial pneumonia during mechanical ventilation: problems with diagnostic criteria: *editorial*, **1128**
Recovery of *Pseudomonas aeruginosa* in respiratory specimens from HIV positive patients being evaluated for *Pneumocystis carinii* pneumonia, **548**
Use of elastin fibre detection in the diagnosis of ventilator associated pneumonia, **14**

Pneumonitis
Detection of human cytomegalovirus antigenaemia: a rapid diagnostic technique for predicting cytomegalovirus infection/pneumonitis in lung and heart transplant recipients, **9**
Interstitial pneumonitis in patients infected with the human immunodeficiency virus, **1141**
Treatment of adenoviral pneumonitis with intravenous ribavirin and immunoglobulin, **1219**

Pneumothorax management, Survey of pneumothorax management in Wessex, **446P**

Pollution levels, Hospital admission rates for asthma and respiratory disease in the West Midlands: their relationship to air pollution levels, **948**

Polymerase chain reaction-enzyme immunoassay, *Chlamydia pneumoniae*: defining the clinical spectrum of infection requires precise laboratory diagnosis, **S43**

Polymorphonuclear leucocyte traffic, Polymorphonuclear leucocyte traffic in lung inflammation: *editorial*, **819**

Polyps, Comparative study of the effects of different glucocorticosteroids on eosinophil survival primed by cultured epithelial cell supernatants obtained from nasal mucosa and nasal polyps, **270**

Polysomnography
Accuracy of an intelligent CPAP machine with in-built diagnostic abilities in detecting apnoeas: a comparison with polysomnography, **1199**
Comparative study of cost of polysomnography and oximetry in the sleep apnoea syndrome, **478P**
Comparison of polysomnography with ResCare Autoset in the diagnosis of the sleep apnoea/hypopnoea syndrome, **1201**
Validation of British Thoracic Society guidelines for the diagnosis of the sleep apnoea/hypopnoea syndrome: can polysomnography be avoided?, **972**

Polyvinyl chloride, Pneumoconiosis and systemic sclerosis following 10 years of exposure to polyvinyl chloride dust, **583**

Positron emission tomography, Imaging allergen-invoked airways inflammation in atopic asthma in vivo using [^{18}F]-fluorodeoxyglucose and positron emission tomography, **438P**

Posterior subcapsular cataract, Posterior subcapsular cataract and inhaled corticosteroid therapy, **674**

Potassium channels, Role of potassium channels in the bronchodilator effect of atrial natriuretic peptide in bovine bronchi, **476P**

Poverty, Asthma and poverty in the West Midlands, **463P**

Pregnancy
Adult congenital lobar emphysema in pregnancy, **909**
Outcome of pregnancy in women with cystic fibrosis, **170**

Prematurity
Ethnic origin and lung function of infants born prematurely, **773**
Influence of maturity at birth on lung volume of preschool children, **447P**
Maternal asthma, premature birth and the risk of respiratory morbidity in primary schoolchildren, **448P**
Short term respiratory outcome in infants with chronic lung disease of prematurity: risk of admission/sudden infant death syndrome, **447P**

Preoperative diagnosis, Preoperative diagnosis of a pulmonary artery sarcoma, **1014**: commentary, **1016**

Preschool children, Compliance with inhaled asthma medication in preschool children, **1274**

Prescription, Review of the prescription of cylinder oxygen in Scotland, **455P**

Preterm delivery, Maternal asthma, premature birth, and the risk of respiratory morbidity in schoolchildren in Merseyside, **525**

Private sector, Audit of discharge rates in respiratory outpatient clinics: NHS versus the private sector, **447P**

Procollagen-1, Temporal pattern of enhanced expression of procollagen-1 in tuberculin induced delayed type hypersensitivity, **459P**

Propranolol airways responsiveness, Effects of propranolol inhalation on the diurnal increase in FEV_1 and on propranolol airways responsiveness in atopic subjects with asthma, **937**

Prostacyclin, Nebulised prostacyclin used as a selective pulmonary vasodilator in acute lung injury, **454P**

Protease, Pulmonary deposition and disappearance of aerosolised secretory leucocyte protease inhibitor, **645**

Pseudomonas aeruginosa
Effect of salmeterol on the interaction between *Pseudomonas aeruginosa* and the respiratory mucosa in vitro, **472P**
Long term effect of erythromycin therapy in patients with chronic *Pseudomonas aeruginosa* infection, **1246**
Recovery of *Pseudomonas aeruginosa* in respiratory specimens from HIV positive patients being evaluated for *Pneumocystis carinii* pneumonia, **548**

Psychiatry, Psychiatric and medical features of near fatal asthma, **254**

Publications, Asthma publications: *letter*, **215**

Pulmonary acoustics, Spectral characteristics of chest wall breath sounds in normal subjects, **1292**

Pulmonary arterial aneurysm, Pulmonary arterial aneurysm presenting as an endobronchial mass, **1013**: commentary, **1016**

Pulmonary arteries, Endothelin-1 induced contraction in human pulmonary arteries: mediated by ETA receptors in large arteries but non-ETA/non-ETB receptors in resistance arteries, **453P**

Pulmonary arteries and arterioles, Endothelin receptors in rat pulmonary arteries and arterioles: effect of pulmonary hypertension, **452P**

Pulmonary arteriovenous malformations
Embolisation of pulmonary arteriovenous malformations: results and follow up in 32 patients, **719**
Pulmonary arteriovenous malformations: *editorial*, **707**

Pulmonary artery rings
Energy state, intracellular pH and tension responses in pulmonary artery rings during hypoxia and absence of substrate, **452P**
Hypoxic constrictor response in intrapulmonary artery rings from chronic hypoxic rats, **452P**

Pulmonary artery sarcoma, Preoperative diagnosis of a pulmonary artery sarcoma, **1014**: commentary, **1016**

Pulmonary artery stenosis, Successful stenting of a pulmonary arterial stenosis after a single lung transplant, **1011**: commentary, **1016**

Pulmonary aspergilloma, Pulmonary aspergilloma in a patient with AIDS, **312**: *commentary*, **317**

Pulmonary blastoma, Combined chemotherapy and radiotherapy in advanced pulmonary blastoma: *letter*, **591**

Pulmonary circulation, Commentary on case reports, **100**

Pulmonary diseases, New developments in the pulmonary diseases affecting HIV infected individuals, **294**: *letter*, **1227**

Pulmonary embolism
Diagnosis of pulmonary embolism: *editorial*, **930**
Incidence of pulmonary thromboembolism, infarction and haemorrhage in disseminated intravascular coagulation: a necroscopic analysis, **160**

Pulmonary endocrine cells, Pulmonary endocrine cells in plexogenic pulmonary arteriopathy associated with cirrhosis, **92**

Pulmonary fibrosis
Diffuse pulmonary fibrosis and Hermansky-Pudlak syndrome: *letter*, **591**
New strategies for treatment of pulmonary fibrosis, **415**
Oxidants/antioxidants in idiopathic pulmonary fibrosis, **S53**

Pulmonary function
Effects of air pollution on symptoms and peak expiratory flow measurements in subjects with obstructive airways disease, **149**: *letter*, **917**

Relation between respiratory symptoms, pulmonary function and peak flow variability in adults, **121**
Pulmonary function testing, Maximal inspiratory pressure: does reproducibility indicate full effort?, **40**
Pulmonary haemorrhage, Pulmonary haemorrhage following renal transplantation, **98**
Pulmonary hypertension, Pulmonary vascular reactivity in severe pulmonary hypertension associated with mixed connective tissue disease, **96**
Pulmonary infections, Opportunities for diagnosing cytomegalovirus in pulmonary infections: *editorial*, **3**
Pulmonary non-tuberculous mycobacterial infections, Characteristics and outcome of patients with pulmonary non-tuberculous mycobacterial infections, **460P**
Pulmonary oedema, High altitude pulmonary oedema: still a place for controversy?: *editorial*, **923**
Pulmonary sequestration, Colonisation with *Aspergillus* of an intralobar pulmonary sequestration, **810**
Pulmonary surfactant, Pulmonary surfactant: unanswered questions: *editorial*, **325**
Pulmonary tuberculosis, Relation of bronchoalveolar lavage T lymphocyte subpopulations to rate of regression of active pulmonary tuberculosis, **869**
Pulmonary vascular endothelial permeability, Pulmonary vascular endothelial permeability in systemic sclerosis: relationship to alveolar epithelial permeability and disease extent, **433P**
Pulmonary vascular involvement, Pulmonary vascular involvement in neoplastic angioendotheliosis, **94**
Pulmonary vascular reactivity, Pulmonary vascular reactivity in severe pulmonary hypertension associated with mixed connective tissue disease, **96**
Pulmonary vascular resistance, Severe pulmonary vascular change in patients dying with right ventricular failure after heart transplantation, **210**
Pulmonary vasorelaxant activity, Pulmonary vasorelaxant activity of atrial natriuretic peptide and brain natriuretic peptide in humans, **183**
Pulmonary veno-occlusive disease, Pulmonary veno-occlusive disease presenting with thrombosis of pulmonary arteries, **699**
Pulse oximetry, Validation of British Thoracic Society guidelines for the diagnosis of the sleep apnoea/hypopnoea syndrome: can polysomnography be avoided?, **972**
Pulse transit time
Evaluation of pulse transit time as a screening respiratory sleep study, **445P**
Use of pulse transit time as a measure of inspiratory effort in obstructive sleep apnoea, **478P**
Pyridostigmine, Comparative effects of plasma exchange and pyridostigmine on respiratory muscle strength and breathing pattern in patients with myasthenia gravis, **1080**

Q fever, Five year follow up of patients involved in the 1989 Q fever outbreak, **464P**
QT dispersion
Abnormal myocardial repolarisation in response to hypoxaemia and fenoterol, **1062**
Increased QT dispersion: a novel marker of abnormal myocardial repolarisation during acute hypoxaemia, **468P**
Quadriplegia, Sleep apnoea in patients with quadriplegia, **613**
Quality of life
Early effect of long term oxygen therapy on quality of life in patients with COPD, **455P**
Explanation to patients with COPD improves quality of life after discharge, **455P**
Long term benefits of rehabilitation at home on quality of life and exercise tolerance in patients with chronic obstructive pulmonary disease, **824**
Quality of life assessment in asthma patients: development and validation of a questionnaire, **463P**
Spirometric parameters and quality of life in patients with COPD from the ISOLDE study, **439P**
Validation of an asthma quality of life diary in a clinical trial, **724**

Radical scavenger, Attenuation of ischaemia reperfusion injury by human thioredoxin, **387**
Radiotherapy
Combined chemotherapy and radiotherapy in advanced pulmonary blastoma: *letter*, **591**
Management of residual thymic cysts in patients treated for mediastinal Hodgkin's disease, **1118**: commentary, **1121**
Recall lung pneumonitis due to carmustine after radiotherapy, **1116**: commentary, **1121**
Risk of lung cancer following radiotherapy for breast cancer in Yorkshire, **473P**
RANTES, Human bronchial epithelial cells express and release RANTES, **449P**
Readmissions, Effect of readmissions on increasing hospital admissions for asthma in children, **934**
Recall pneumonitis, Recall lung pneumonitis due to carmustine after radiotherapy, **1116**: commentary, **1121**
Recombinant human DNase
DNA concentration and length in sputum of patients with cystic fibrosis during inhalation with recombinant DNase, **880**
Effect of nebulised recombinant DNase on mediators of inflammation in cystic fibrosis, **465P**
Effect of recombinant human DNase in vitro and in vivo in bronchiectasis, **434P**
Medium term treatment of stable stage cystic fibrosis with recombinant human DNase I, **333**
Recombinant human DNase in management of lobar atelectasis due to retained secretions, **1319**: commentary, **1323**
rhDNase in cystic fibrosis: *editorial*, **321**
Reflex activity
Comparison of reflex activity of levator palatini and palatopharyngeus in patients with sleep apnoea, **445P**
Reflex activity of palatal muscles in patients with sleep apnoea and normal non-snoring subjects, **445P**
Refractory period, Effects of diurnal variation and prolonged refractoriness on repeated measurements of airways responsiveness to methacholine, **235**
Relaxation, Airway smooth muscle relaxation, **894**
REM sleep, Respiratory muscle activity during rapid eye movement (REM) sleep in patients with chronic obstructive pulmonary disease, **376**
Renal calculi, Nephrolithiasis as a presenting feature of chronic sarcoidosis, **555**
Renal failure, Phrenic neuropathy in chronic renal failure, **793**
Renal transplantation
Impact of bronchoalveolar lavage in suspected pneumonia after renal transplantation, **465P**
Pulmonary haemorrhage following renal transplantation, **98**
Renal unit, Follow up of an immunocompromised contact group of a case of open pulmonary tuberculosis on a renal unit, **863**
Renin-angiotensin system, Effect of hypoxia and beta$_2$ agonists on the activity of the renin-angiotensin system, **475P**
ResCare Autoset, Comparison of polysomnography with ResCare Autoset in the diagnosis of the sleep apnoea/hypopnoea syndrome, **1201**
Respiratory control, Perception, personality, and respiratory control in life-threatening asthma, **S2**
Respiratory diary card data, Comparison of two methods of collecting respiratory diary card data: conventional paper and electronic diary, **467P**
Respiratory disease
Gene therapy for respiratory diseases: potential applications and difficulties: *editorial*, **484**
Hospital admission rates for asthma and respiratory disease in the West Midlands: their relationship to air pollution levels, **948**
Short term fluctuations in air pollution and hospital admissions of the elderly for respiratory disease, **531**
Respiratory distress syndrome, Role of elevated plasma soluble ICAM-1 and bronchial lavage fluid IL-8 levels as markers of chronic lung disease in premature infants, **1073**
Respiratory effort sensation, Expiratory muscle training and sensation of respiratory effort during exercise in normal subjects, **366**
Respiratory failure
Outcome of domiciliary nasal intermittent positive pressure ventilation in restrictive and obstructive disorders, **604**
Outcome of nasal intermittent positive pressure ventilation in acute respiratory failure, **435P**
Respiratory medicine, 1994 Year in Review: Selected topics in respiratory medicine: *editorial*, **933**; Supplement 1, **S1-S64**
Respiratory morbidity, Maternal asthma, premature birth and the risk of respiratory morbidity in primary schoolchildren, **448P**
Respiratory mucosa
An air interface organ culture model for use in the study of the interactions of bacteria, viruses and pharmacological agents with the human respiratory mucosa, **470P**

Effect of salmeterol on the interaction between *Pseudomonas aeruginosa* and the respiratory mucosa in vitro, **472P**

Respiratory muscles
Comparative effects of plasma exchange and pyridostigmine on respiratory muscle strength and breathing pattern in patients with myasthenia gravis, **1080**
Maximal inspiratory pressure: does reproducibility indicate full effort?, **40**
Measurement of respiratory muscle strength: *editorial*, **1131**
Mouth pressure in response to magnetic stimulation of the phrenic nerves, **620**
Nocturnal saturation and respiratory muscle function in patients with chronic obstructive pulmonary disease, **610**
Respiratory muscle activity during rapid eye movement (REM) sleep in patients with chronic obstructive pulmonary disease, **376**

Respiratory outpatient clinics, Audit of discharge rates in respiratory outpatient clinics: NHS versus the private sector, **447P**

Respiratory pathogens, Antibiotic resistance in common acute respiratory pathogens: *editorial*, **481**

Respiratory pressures, Maximal values of sniff nasal inspiratory pressure in healthy subjects, **371**

Respiratory sounds
Significant differences in flow standardised breath sound spectra in patients with chronic obstructive pulmonary disease, stable asthma, and healthy lungs, **1285**
Spectral characteristics of chest wall breath sounds in normal subjects, **1292**

Respiratory symptoms
Employment status and the perceived association of occupation with respiratory symptoms in young adults with and without asthma, **431P**
Relation between respiratory symptoms, pulmonary function and peak flow variability in adults, **121**
Respiratory symptoms and asthma in a working population and in the general population, **431P**

Respiratory tract infection
Association of non-wheezing lower respiratory tract illnesses in early life with persistently diminished serum IgE levels, **1067**
New and future antibiotics in the treatment of acute respiratory tract infections: *editorial*, **223**

Restriction fragment length polymorphism
Beta$_2$ adrenergic receptor gene restriction fragment length polymorphism and bronchial asthma, **353**
Restriction fragment length polymorphism typing of *Mycobacterium tuberculosis*, **1211**

Retrognathia, Sleep apnoea syndrome secondary to rheumatoid arthritis, **692**: commentary, **696**

Retropharyngeal abscess, Empyema and mediastinitis with retropharyngeal abscess: *letter*, **216**

Rheumatoid arthritis, Sleep apnoea syndrome secondary to rheumatoid arthritis, **692**: commentary, **696**

Rhinitis
Effects of topical capsaicin in seasonal allergic rhinitis, **225**
Synthesis of IL-8, GM-CSF and TNFalpha by cultured nasal epithelial cells from atopic rhinitic, atopic non-rhinitic and non-atopic non-rhinitic subjects and the effect of exposure to nitrogen dioxide, **448P**

Ribavirin, Treatment of adenoviral pneumonitis with intravenous ribavirin and immunoglobulin, **1219**

Rifampicin
Hepatotoxicity caused by the combined action of isoniazid and rifampicin, **213**
Toxicity of isoniazid and rifampicin combination: *letter*, **814**

Right ventricular failure, Severe pulmonary vascular change in patients dying with right ventricular failure after heart transplantation, **210**

Riu's stain, Multiple brushings with immediate Riu's stain via flexible fibreoptic bronchoscopy without fluoroscopic guidance in the diagnosis of peripheral pulmonary tumours, **18**

Salbutamol
Acute severe asthma: oxygen and high dose beta agonist during transfer for all?: *editorial*, **1**
An open, prospective comparison of beta$_2$ agonists given via nebuliser, Nebuhaler, or pressurised inhaler by ambulance crew as emergency treatment, **79**
Beta$_2$ agonist/antagonist activity of salbutamol: *letter*, **1227**
Bronchodilator responsiveness to salbutamol and histamine reactivity after continuous treatment with twice daily salmeterol, **476P**
Comparison of the efficacy and tolerability of eformoterol and salbutamol dry powder capsules for inhalation in elderly asthmatic patients, **469P**
Comparison of nebulised salbutamol and ipratropium bromide with salbutamol alone in the treatment of chronic obstructive pulmonary disease, **834**
Comparison of the relative airways and systemic potencies of inhaled fenoterol and salbutamol in asthmatic patients, **54**
Effectiveness of nebulised salbutamol administered in ambulances to patients with severe acute asthma, **81**
Expression of the beta$_2$ adrenoceptor partial agonist/antagonist activity of salbutamol in states of low and high adrenergic tone, **134**: *letter*, **1227**
Factors affecting total and "respirable" dose delivered by a salbutamol metered dose inhaler, **746**
Generic salbutamol metered dose inhalers: *letter*, **590**

Salbutamol sulphate, Comparison of nebulisation therapy combining ipratropium bromide (0·5 mg) plus salbutamol sulphate (3·0 mg) with salbutamol sulphate (3·0 mg) alone in acute asthma, **450P**

Saline challenge, Bronchial responsiveness and symptoms in 5–6 year old children: a comparisona of a direct and indirect challenge, **339**

Salmeterol
Bronchodilator responsiveness to salbutamol and histamine reactivity after continuous treatment with twice daily salmeterol, **476P**
Effect of salmeterol on the interaction between *Pseudomonas aeruginosa* and the respiratory mucosa in vitro, **472P**
Efficacy of inhaled salmeterol in the management of smokers with chronic obstructive pulmonary disease, **750**
Salmeterol inhaler using a non-chlorinated propellant, HFA134a: systemic pharmacodynamic activity in healthy volunteers, **679**

Sarcoidosis
Excessive thoracic computed tomographic scanning in sarcoidosis, **1264**
Gamma/delta T lymphocytes in the blood of patients with sarcoidosis, **858**
Lack of association between HLA-DPB and sarcoidosis, **457P**
Nephrolithiasis as a presenting feature of chronic sarcoidosis, **555**
Sarcoidosis presenting with chylothorax, **1324**
Tumour necrosis factor alpha regulation by interleukin 10 in alveolar macrophages from patients with sarcoidosis or fibrosing alveolitis, **457P**

Sarcoma, Preoperative diagnosis of a pulmonary artery sarcoma, **1014**: commentary, **1016**

School absence, School absence and asthma: time for reappraisal, **464P**

Schools, Care of children with asthma in schools, **464P**

Sclerosing mediastinitis, Sclerosing mediastinitis: a report on 18 cases, **280**

Scotland
Non-tuberculous pulmonary infections in Scotland: a cluster in Lothian?, **188**
Review of the prescription of cylinder oxygen in Scotland, **455P**
Scottish national survey of tuberculosis notifications in 1993 with special reference to the prevalence of HIV seropositivity, **442P**
Tuberculosis incidence in Scotland is increasing in the young and the elderly, **460P**

Secretory leucocyte protease inhibitor, Pulmonary deposition and disappearance of aerosolised secretory leucocyte protease inhibitor, **645**

Selectins, Mechanisms of the adult respiratory distress syndrome: selectins, **S49**

Self care, Different perceptions of disease severity and self care between patients with cystic fibrosis, their close companions, and physician, **794**

Self-management, Peak flow based asthma self-management: a randomised controlled study in general practice, **851**

Self-management programme, Randomised trial of an asthma self-management programme for adults, **731**

Sentinel method, Repeaters count: a sentinel method for asthma outbreaks, **1101**

Severe life threatening asthma
Beta agonist type and outcome following severe life threatening attack of asthma, **450P**
Risk of severe life threatening asthma and death and type of prescribed agonist: an example of confounding by severity, **449P**
Sex
Effect of readmissions on increasing hospital admissions for asthma in children, **934**
Incidence of asthma in Swedish teenagers: relation to sex and smoking habits, **260**
Trends in mortality from tuberculosis in England and Wales: effect of age on deaths from non-respiratory disease, **976**
Shift, Influence of a variety of personal characteristics upon across shift and across week changes in lung function in textile workers, **461P**
Shift working, Comparison of across shift and across week variations in lung function in symptomatic textile workers and matched cohorts, **441P**
Single breath method, Comparison of the single breath with the intrabreath method for the measurement of the carbon monoxide transfer factor in subjects with and without airways obstruction, **902**
Skeletal muscle, Efficiency of oxidative work performance of skeletal muscle in patients with cystic fibrosis, **980**
Sleep, Sleep and breathing problems in general medicine, **1311**
Sleep apnoea
Comparison of reflex activity of levator palatini and palatopharyngeus in patients with sleep apnoea, **445P**
Consequences of sleep disordered breathing, **998**
Continuous nasal positive airway pressure with a mouth leak: effect on nasal mucosal blood flux and nasal geometry, **1179**
Obstructive sleep apnoea: definitions, epidemiology, and natural history, **683**
Obstructive sleep apnoea with Arnold-Chiari malformation, **690**: commentary, **696**
Obstructive sleep apnoea syndrome in infants and children: established facts and unsettled issues, **1204**
Pathophysiology of obstructive sleep apnoea, **797**
Reflex activity of palatal muscles in patients with sleep apnoea and normal non-snoring subjects, **445P**
Sleep apnoea in patients with quadriplegia, **613, 613**
Sleep apnoea syndrome
Comparative study of cost of polysomnography and oximetry in the sleep apnoea syndrome, **478P**
Sleep apnoea syndrome secondary to rheumatoid arthritis, **692**: commentary, **696**
Sleep apnoea/hypopnoea syndrome
Adequacy of prescribing nasal continuous positive airway pressure therapy for the sleep apnoea/hypopnoea syndrome on the basis of night time respiratory recording variables, **969**
Comparison of polysomnography with ResCare Autoset in the diagnosis of the sleep apnoea/hypopnoea syndrome, **1201**
How to reach a diagnosis in patients who may have the sleep apnoea/hypopnoea syndrome, **883**
Self assessment of daytime sleepiness: patient versus partner, **994**
Validation of British Thoracic Society guidelines for the diagnosis of the sleep apnoea/hypopnoea syndrome: can polysomnography be avoided?, **972**
Sleep disordered breathing, Consequences of sleep disordered breathing, **998**
Sleep fragmentation, Effect of sleep fragmentation on daytime function, **445P**
Sleep-related breathing disorders, Introduction to series, **682**
Sleep study, Evaluation of pulse transit time as a screening respiratory sleep study, **445P**
Sleepiness, Self assessment of daytime sleepiness: patient versus partner, **994**
Small cell lung cancer, Inhibition of growth factor-stimulated tyrosine phosphorylation induces apoptosis in small cell lung cancer cell lines, **457P**
Smoke, Effect of ambient levels of smoke and sulphur dioxide on the health of a national sample of 23 year old subjects in 1981, **764**
Smokers
Efficacy of inhaled salmeterol in the management of smokers with chronic obstructive pulmonary disease, **750**
Lung cancer in ex-smokers, **473P**
Spectral characteristics of chest wall breath sounds in normal subjects, **1292**
Smoking
Accelerated lung function decline in textile workers: cotton dust, cigarette smoking or both?, **462P**
Attitudes of Asian medical students towards smoking, **996**
Cigarette smoke and rat lung glutathione metabolism, **480P**
Cigarette smoking and death certification, **446P**
Contribution of neutrophils, tumour necrosis factor and glutathione to cigarette smoke-induced increased airspace permeability, **479P**
Effect of cigarette smoke on the mRNA and protein expression of carcinoembryonic antigen, a possible chemoattractant for neutrophils in human bronchioloalveolar tissues, **651**
Incidence of asthma in Swedish teenagers: relation to sex and smoking habits, **260**
Interleukin 8 may be involved in the recruitment of neutrophils into the respiratory tract of smokers and patients with chronic obstructive pulmonary disease, **479P**
Maternal asthma, premature birth, and the risk of respiratory morbidity in schoolchildren in Merseyside, **525**
Nitration of tyrosine by gas phase cigarette smoke: a mechanism of biomolecular damage by exposure to excess nitric oxide?, **480P**
Smoking cessation: time for action, **S22**
The tar reduction study: randomised trial of the effect of cigarette tar yield reduction on compensatory smoking, **1038**
Sniff nasal inspiratory pressure, Maximal values of sniff nasal inspiratory pressure in healthy subjects, **371**
Sodium, Effect of dietary sodium on airways responsiveness and its importance in the epidemiology of asthma: an evaluation in three areas of northern England, **941**
Sodium excretion, Effects of ACE inhibition on sodium excretion in COPD: *letter*, **430**
Sodium metabisulphite, Effects of sodium metabisulphite on guinea pig contractile airway smooth muscle responses in vitro, **875**
Sodium and water excretion, Hormonal, renal, and autonomic nerve factors involved in the excretion of sodium and water during dynamic salt and water loading in hypoxaemic chronic obstructive pulmonary disease, **838**
Solder flux, Occupational asthma due to a widely used soft solder flux not containing colophony, **461P**
Soluble intercellular adhesion molecule 1, Role of elevated plasma soluble ICAM-1 and bronchial lavage fluid IL-8 levels as markers of chronic lung disease in premature infants, **1073**
Soybean, Repeaters count: a sentinel method for asthma outbreaks, **1101**
Spacer device, Differences in aerodynamic particle size distributions of innovator and generic beclomethasone dipropionate aerosols used with and without a large volume spacer, **846**
Spatial mapping, Spatial mapping to relate respiratory morbidity to a point source of air pollution, **431P**
Spinal surgery, Effect of spinal surgery on lung function in Duchenne muscular dystrophy, **1173**
Spirometric parameters, Spirometric parameters and quality of life in patients with COPD from the ISOLDE study, **439P**
Spirometry, Nocturnal oxygen desaturation and spirometric parameters in adults with cystic fibrosis, **539**
Spontaneous breathing, Measurement of effective alveolar carbon dioxide tension during spontaneous breathing in normal subjects and patients with chronic airways obstruction, **240**
Sputum
Exacerbations of asthma without sputum eosinophilia, **1057**
Recombinant human DNase in management of lobar atelectasis due to retained secretions, **1319**: commentary, **1323**
Sputum analysis, DNA concentration and length in sputum of patients with cystic fibrosis during inhalation with recombinant DNase, **880**
Sputum examination, Relative diagnostic value of gastric lavage, bronchoalveolar lavage, and sputum examination in the diagnosis of pulmonary tuberculosis, **443P**
Static lung compliance, Static lung compliance in chronic heart failure: relation with dyspnoea and exercise capacity, **245**
Stent
Stenting of superior vena caval obstruction, **S31**
Successful stenting of a pulmonary arterial stenosis after a single lung transplant, **1011**: commentary, **1016**
Treatment of malignant obstruction of the superior vena cava with the self-expanding Wallstent, **1151**
Sternum, Tuberculosis of the sternum presenting as metastatic disease, **1223**

Steroids
Expression of IL-1 and IL-1 receptor antagonist (IL-1ra) in asthmatic bronchial epithelium: effect of steroids, **448P**
Inhaled corticosteroids, asthma, and longer term bone metabolism: collagen crosslinks, osteocalcin, and densitometry after one year, **444P**
Markers of bone metabolism in asthmatic children receiving inhaled corticosteroids, **444P**
Patterns of prescribing of inhaled steroids over a seven year period in a general practice and its implications, **443P**
Streptococcus milleri, *Streptococcus milleri* pulmonary disease: a review and clinical description of 25 patients, **1093**
Substance abusers, Tuberculin test screening in substance abusers, **460P**
Substance P
Inhibition of substance P degradation and its effect on human respiratory ciliary activity in vitro, **472P**
Neurogenic inflammation in human airways: is it important?: *editorial*, **217**
Sudden infant death syndrome
Bronchus-associated lymphoid tissue (BALT) in the lungs of children who had died from sudden infant death syndrome and other causes, **658**
Short term respiratory outcome in infants with chronic lung disease of prematurity: risk of admission/sudden infant death syndrome, **447P**
Sulphur dioxide
Effect of ambient levels of smoke and sulphur dioxide on the health of a national sample of 23 year old subjects in 1981, **764**
Effects of sodium metabisulphite on guinea pig contractile airway smooth muscle responses in vitro, **875**
Superior vena cava, Treatment of malignant obstruction of the superior vena cava with the self-expanding Wallstent, **1151**
Superior vena caval obstruction, Stenting of superior vena caval obstruction, **S31**
Supernumerary tracheal bronchus, Demonstration of supernumerary tracheal bronchus by computed tomographic scanning and magnetic resonance imaging, **426**
Supplement, 1994 Year in Review: Selected topics in respiratory medicine: *editorial*, **933**; Supplement 1, **S1-S64**
Surfactant, Pulmonary surfactant: unanswered questions: *editorial*, **325**
Survival analysis, Effect of spinal surgery on lung function in Duchenne muscular dystrophy, **1173**
Swedish teenagers, Incidence of asthma in Swedish teenagers: relation to sex and smoking habits, **260**
Sympathicolysis, Cardiopulmonary exercise testing following bilateral thoracoscopic sympathicolysis in patients with essential hyperhidrosis, **1097**
Systemic bioactivity, New perspectives on inhaled drug delivery and systemic bioactivity: *editorial*, **105**: correction, **592**
Systemic sclerosis
Alterations in CT parenchymal density gradients in lone pulmonary hypertension complicating systemic sclerosis, **454P**
Decreased endogenous nitric oxide in the exhaled air of systemic sclerosis patients with pulmonary hypertension, **452P**
Pneumoconiosis and systemic sclerosis following 10 years of exposure to polyvinyl chloride dust, **583**
Prediction of pulmonary hypertension in patients with systemic sclerosis and fibrosing alveolitis, **454P**
Pulmonary vascular endothelial permeability in systemic sclerosis: relationship to alveolar epithelial permeability and disease extent, **433P**
Rapid clearance of inhaled 99mTc-DTPA independently predicts lung functional decline in fibrosing alveolitis associated with systemic sclerosis, **433P**

T cell receptor genetics, T cell receptor genetics, autoimmunity and asthma: *editorial*, **919**
T lymphocyte subpopulations, Relation of bronchoalveolar lavage T lymphocyte subpopulations to rate of regression of active pulmonary tuberculosis, **869**
T lymphocytes
Effect of cyclosporin A on the expression of activation markers by T lymphocytes in chronic severe asthma, **476P**
Gamma/delta T lymphocytes in the blood of patients with sarcoidosis, **858**
Tachyphylaxis, Effects of propranolol inhalation on the diurnal increase in FEV_1 and on propranolol airways responsiveness in atopic subjects with asthma, **937**
Tar, The tar reduction study: randomised trial of the effect of cigarette tar yield reduction on compensatory smoking, **1038**
Technetium-labelled diethylene triamine pentaacetate, Rapid clearance of inhaled 99mTc-DTPA independently predicts lung functional decline in fibrosing alveolitis associated with systemic sclerosis, **433P**
Tetracycline pleurodesis, Tetracycline pleurodesis in malignant pleural effusion: a comparison of needle aspiration with intercostal tube drainage, **437P**
Textile workers
Accelerated lung function decline in textile workers: cotton dust, cigarette smoking or both?, **462P**
Comparison of across shift and across week variations in lung function in symptomatic textile workers and matched cohorts, **441P**
Influence of a variety of personal characteristics upon across shift and across week changes in lung function in textile workers, **461P**
Th2 lymphocytes, Th2 lymphocytes predominate in the pulmonary interstitium of patients with cryptogenic fibrosing alveolitis, **432P**
Thiol levels, Effect of *N*-acetyl cysteine on thiol levels: *letter*, **215**
Thiols, Effectiveness of low molecular weight thiols in protecting epithelial lining fluids from ozone-induced damage, **480P**
Thioredoxin, Attenuation of ischaemia reperfusion injury by human thioredoxin, **387**
Thiorphan, Effect of thiorphan, an inhibitor of neutral endopeptidase, on the bronchodilator response to inhaled atrial natriuretic peptide in asthma, **476P**
Thoracic allograft transplantation, Severe pulmonary vascular change in patients dying with right ventricular failure after heart transplantation, **210**
Thoracic duct obstruction, Sarcoidosis presenting with chylothorax, **1324**
Thoracoscopic surgery, Initial experience of video assisted thoracoscopic pneumonectomy, **392**
Thoracoscopic talc poudrage, Malignant pleural effusion: *letter*, **103**
Thoracoscopy, Cardiopulmonary exercise testing following bilateral thoracoscopic sympathicolysis in patients with essential hyperhidrosis, **1097**
Thoracotomy
Combined pulmonary and thoracic wall resection for stage III lung cancer, **782**
Lung injury in patients following thoracotomy, **990**: correction, **1124**
Thorax, Annual Report October 1994 to September 1995: *editorial*, **1233**
Thrombomodulin, Plasma thrombomodulin in patients "at risk" and with established adult respiratory distress syndrome, **458P**
Thrombosis, Pulmonary veno-occlusive disease presenting with thrombosis of pulmonary arteries, **699**
Thymic cysts, Management of residual thymic cysts in patients treated for mediastinal Hodgkin's disease, **1118**: commentary, **1121**
Thymoma, Thymoma: a comparison between surgical and pathological classification, **474P**
Thymus, Parathyroid cyst of the thymus, **913**
Thyroid lymphoma, Lethal tracheal dissolution during treatment for thyroid lymphoma, **1120**: commentary, **1121**
Tidal breathing, Evaluation of an index of overinflation derived from analysis of tidal breathing, **468P**
Tidal expiration, Time constants during tidal expiration and maximally forced expiration, **468P**
Tidal expiratory flow, Analysis of tidal expiratory flow pattern in the assessment of histamine-induced bronchoconstriction, **346**
Titanium dioxide, Toxicity of environmental particulate: studies with ultrafine titanium dioxide, **461P**
TNM staging, TNM staging system for malignant mesothelioma: evaluation in 88 patients with malignant pleural mesothelioma, **437P**
Tobacco advertising, The BTS and Doctors for Tobacco Law: working towards ending tobacco advertising: *editorial*, **6**
Tracheal bronchus, Demonstration of supernumerary tracheal bronchus by computed tomographic scanning and magnetic resonance imaging, **426**

Tracheal perforation, Lethal tracheal dissolution during treatment for thyroid lymphoma, **1120**: commentary, **1121**
Transcutaneous CO_2, Nocturnal oximetry and transcutaneous CO_2 in patients with cystic fibrosis, **478P**
Transfer, Transfer of severe asthmatics: *letter*, **703**
Transferrin, Plasma 4-hydroxy-2-nonenal levels during cardiopulmonary bypass and their relationship to the iron loading of transferrin, **458P**
Transthoracic biopsy, Transthoracic needle biopsy of thoracic tumours by a colour Doppler ultrasound puncture guiding device, **1258**
Treadmill, Comparison of peak oxygen consumption during cycle and treadmill exercise in severe chronic obstructive pulmonary disease, **829**
Trekkers, Respiratory observations on trekkers accompanying the 40th anniversary British Everest Expedition, **467P**
Tuberculin, Temporal pattern of enhanced expression of procollagen-1 in tuberculin induced delayed type hypersensitivity, **459P**
Tuberculin test, Tuberculin test screening in substance abusers, **460P**
Tuberculosis
Changing pattern of respiratory tuberculosis in adult patients from the Indian subcontinent, **442P**
Control and prevention of tuberculosis in the UK: *letter*, **916**, **1326**
Escalating threat from tuberculosis: the third epidemic, **S37**
Experience of miliary tuberculosis in a high incidence area: Blackburn 1978–93, **460P**
Follow up of an immunocompromised contact group of a case of open pulmonary tuberculosis on a renal unit, **863**
Hepatotoxicity caused by the combined action of isoniazid and rifampicin, **213**
Molecular diagnosis of tuberculosis: the need for new diagnostic tools: *editorial*, **709**
More ambiguities and inaccuracies in the notification of cases of tuberculosis in England and Wales, **459P**
Mycobacterial infection in HIV seropositive and seronegative populations, 1987–93, **1147**
Prospects for global health: lessons from tuberculosis: *editorial*, **487**
Randomised trial of corticosteroids in the treatment of tuberculous pleurisy, **1305**
Replacement of one lung by a large bulla in active tuberculosis, **427**
Restriction fragment length polymorphism typing of *Mycobacterium tuberculosis*, **1211**
Results of the national survey of tuberculosis notifications in England and Wales in 1993, **442P**
Sclerosing mediastinitis: a report on 18 cases, **280**
Scottish national survey of tuberculosis notifications in 1993 with special reference to the prevalence of HIV seropositivity, **442P**
Trends in mortality from tuberculosis in England and Wales: effect of age on deaths from non-respiratory disease, **976**
Trends in tuberculosis notifications in England and Wales, 1982–93, **459P**
Tuberculosis: how to improve notification rates, **443P**
Tuberculosis among the homeless in London, **459P**
Tuberculosis incidence in Scotland is increasing in the young and the elderly, **460P**
Tuberculosis screening and tuberculin testing in two social clubs in the city of Liverpool, **460P**
Tuberculosis of the sternum presenting as metastatic disease, **1223**
Tuberculosis in the UK: *letter*, **703**
Tuberculous pleurisy and adenosine deaminase: *editorial*, **593**
Use of adenosine deaminase as a diagnostic tool for tuberculous pleurisy, **672**
Value of adenosine deaminase in the diagnosis of tuberculous pleural effusions in young patients in a region of high prevalence of tuberculosis, **600**
Vegetarian diet as a risk factor for tuberculosis in immigrant south London Asians, **175**: *letter*, **915**
Tumour necrosis factor, Contribution of neutrophils, tumour necrosis factor and glutathione to cigarette smoke-induced increased airspace permeability, **479P**
Tumour necrosis factor alpha
Synthesis of IL-8, GM-CSF and TNFalpha by cultured nasal epithelial cells from atopic rhinitic, atopic non-rhinitic and non-atopic non-rhinitic subjects and the effect of exposure to nitrogen dioxide, **448P**
Tumour necrosis factor alpha is present in high concentrations in the airways of patients with chronic obstructive pulmonary disease, **479P**
Tumour necrosis factor alpha regulation by interleukin 10 in alveolar macrophages from patients with sarcoidosis or fibrosing alveolitis, **457P**
Tumourlets, Obliterative bronchiolitis caused by multiple tumourlets and microcarcinoids successfully treated by single lung transplantation, **207**
Turbohaler
An alternative aerosol delivery system for amiloride, **517**
Comparative efficacy of ipratropium bromide via Turbohaler and MDI in patients with reversible airflow obstruction, **469P**
Efficacy of once daily budesonide via Turbohaler in moderate asthma, **470P**
Ipratropium bromide given by Turbohaler is more potent than when given by pressurised metered dose inhaler, **469P**
Twitch mouth pressure, Mouth pressure in response to magnetic stimulation of the phrenic nerves, **620**
Tyrosine, Nitration of tyrosine by gas phase cigarette smoke: a mechanism of biomolecular damage by exposure to excess nitric oxide?, **480P**
Tyrosine phosphorylation, Inhibition of growth factor-stimulated tyrosine phosphorylation induces apoptosis in small cell lung cancer cell lines, **457P**

Ulcerative bronchitis, Necrotic, ulcerative bronchitis, the presenting feature of lymphoproliferative disease following heart-lung transplantation, **205**
Ultrasound puncture guiding device, Transthoracic needle biopsy of thoracic tumours by a colour Doppler ultrasound puncture guiding device, **1258**
Upper respiratory tract infection
Increased nitric oxide in exhaled air of normal subjects with upper respiratory tract infection, **451P**
Upper respiratory tract infections and exercise: *editorial*, **1229**
Uraemia, Phrenic neuropathy in chronic renal failure, **793**

Vacu-Cut needle, Percutaneous lung biopsy with a fine bore cutting needle (Vacu-Cut): improved results using drill technique, **560**
Varicella zoster
Commentary: severe varicella/zoster and adenovirus infections in immunocompromised patients, **1222**
Fatal varicella zoster infection in a severe steroid dependent asthmatic patient receiving methotrexate, **1221**
Vasodilator therapy, Inhaled vasodilator therapy in acute lung injury: first, do NO harm?: *editorial*, **821**
Vegetarian diet, Vegetarian diet as a risk factor for tuberculosis in immigrant south London Asians, **175**: *letter*, **915**
Ventilation
A progressive care programme for patients failing to wean on an ICU, **435P**
Adult and paediatric size bronchoscopes for bronchoalveolar lavage in mechanically ventilated patients: yield and side effects, **290**
Characteristics of infants ventilated with fast rates who receive muscle relaxants, **447P**
Comparison of "elective" and "emergency" initiation of nocturnal assisted ventilation: importance of avoiding endotracheal intubation, **435P**
Effects of short term high frequency negative pressure ventilation on gas exchange using the Hayek oscillator in normal subjects, **44**
Long term nasal ventilation: *editorial*, **595**
Nosocomial pneumonia during mechanical ventilation: problems with diagnostic criteria: *editorial*, **1128**
Outcome of domiciliary nasal intermittent positive pressure ventilation in restrictive and obstructive disorders, **604**
Outcome of nasal intermittent positive pressure ventilation in acute respiratory failure, **435P**
Supplementary oxygen administration with nasal intermittent positive pressure ventilation, **435P**
Ventilation-perfusion relationships, Ventilation-perfusion relationships during anaesthesia, **85**
Ventilator, Effect of a spacer on pulmonary aerosol deposition from a jet nebuliser during mechanical ventilation, **50**
Ventilator associated pneumonia, Use of elastin fibre detection in the diagnosis of ventilator associated pneumonia, **14**

Ventilatory response, Effects of fenoterol on ventilatory responses to hypoxia and hypercapnia in normal subjects, **139**
Venturi mask, Compliance at night with low flow oxygen therapy: a comparison of nasal cannulae and Venturi face masks, **405**
Video assitance, Initial experience of video assisted thoracoscopic pneumonectomy, **392**
Viral infections, Role of viral infections in the inception of childhood asthma and allergies: *letter*, **701**
Visual analogue scale, Perception of asthma and breathlessness during exercise scored on a visual analogue scale, **467P**
Vocal cord adduction, Paradoxical vocal cord adduction in an adolescent with cystic fibrosis, **694**: commentary, **696**: *letter*, **1228**

Wallstent, Treatment of malignant obstruction of the superior vena cava with the self-expanding Wallstent, **1151**
Weaning failure, A progressive care programme for patients failing to wean on an ICU, **435P**
Welding, Occupational asthma due to gas metal arc welding on mild steel, **587**
West Midlands, Asthma and poverty in the West Midlands, **463P**
Wheeze
Characteristics of wheeze during histamine-induced airways obstruction in children with asthma, **143**
Potential for lung sound monitoring during bronchial provocation testing, **955**
Trends in the prevalence of asthma in Scottish and English primary school children 1982–92, **992**
Wheezing illness, Childhood asthma: what is it and where is it going?: *editorial*, **1027**
Winter pollution, Effects of winter pollution on respiratory symptoms and medication use in subjects with asthma and chronic bronchitis, **461P**

X ray planimetry, Critical evaluation of computerised *x* ray planimetry for the measurement of lung volumes, **383**

Young adults, Attitudes of Asian medical students towards smoking, **996**
